## **Powder Diffraction**

Journal of Materials Characterization

Journal of the International Centre for Diffraction Data  
<https://www.cambridge.org/core/journals/powder-diffraction>  
Volume 38, Issues 1-4

eISSN: 1945-7413; ISSN: 0885-7156

### **Editor-in-Chief**

Camden Hubbard, Applied Diffraction Services, USA

### **Managing Editor**

Nicole Ernst Boris, International Centre for Diffraction Data, USA

### **Editors for New Diffraction Data**

Stacy Gates-Rector, International Centre for Diffraction Data, USA  
Soorya Kabekkodu, International Centre for Diffraction Data, USA

### **Associate Editor for New Diffraction Data**

Frank Rotella, Argonne National Laboratory (Retired), USA

### **Editors**

Xiaolong Chen, Institute of Physics, Chinese Academy of Sciences, China  
José Miguel Delgado, Universidad de Los Andes, Venezuela  
Norberto Masciocchi, Università dell'Insubria, Italy

### **Editors for Crystallography Education**

James Kaduk, Poly Crystallography Inc., USA  
Brian H. Toby, Argonne National Laboratory, USA

### **International Reports Editor**

Winnie Wong-Ng, National Institute of Standards and Technology, USA

### **Calendar of Meetings and Workshops Editor**

Gang Wang, Chinese Academy of Sciences, China

### **Advisory Board**

Evgeny Antipov, Moscow State University, Russian Federation  
Xiaolong Chen, Chinese Academy of Sciences, China  
Jose Miguel Delgado, University de Los Andes, Venezuela  
Steve Hillier, The James Hutton Institute, UK  
Takashi Ida, Nagoya Institute of Technology, Japan  
Matteo Leoni, University of Trento, Italy  
Vanessa Peterson, Australian Nuclear Science and Technology Organisation, Australia  
Mark Rodriguez, Sandia National Labs, USA  
T.N. Guru Row, Indian Institute of Science, India  
Allison Keene, Cambridge University Press, USA

Information about editors and editorial board members correct as of 1st January 2022. For the latest information please see <https://www.cambridge.org/core/journals/powder-diffraction/information/editorial-board>

### **Aims & Scope**

ICDD's quarterly, and special topical issue, international journal, *Powder Diffraction*, focuses on materials characterization employing X-ray powder diffraction and related techniques. With feature articles covering a wide range of applications, from mineral analysis to epitactic growth of thin films to advances in application software and hardware, this journal offers a wide range of practical applications. ICDD, in collaboration with the Denver X-ray Conference Organizing Committee, has increased services for the subscribers of Powder Diffraction and authors of Advances in X-ray Analysis. Beginning in 2006, ICDD offered a copy of the previous year's edition of AXA to Powder Diffraction institutional subscribers who receive both print and on-line versions. This effectively doubles the number of articles annually available to Powder Diffraction subscribers and significantly increases the circulation for the authors in Advances in X-ray Analysis.

### **Subject coverage includes:**

- Techniques and procedures in X-ray powder diffractometry
- Advances in instrumentation
- Study of materials including organic materials, minerals, metals and thin film superconductors
- Publication of powder data on new materials

### **International Centre for Diffraction Data**

The International Centre for Diffraction Data (ICDD<sup>®</sup>) is a non-profit scientific organization dedicated to collecting, editing, publishing, and distributing powder diffraction data for the identification of materials. The membership of the ICDD consists of worldwide representation from academe, government, and industry.

## TECHNICAL ARTICLE

- Qi Li, Yi Huang, Yanfang Lou, Munan Hao and Shifeng Jin      Experimental electron density distribution of  $KZnB_3O_6$  constructed by maximum-entropy method  
doi:10.1017/S0885715623000428      233

## NEW DIFFRACTION DATA

- Paweł Adamski, Aleksander Albrecht and Dariusz Moszyński      Synthesis and crystal structure of layered molybdate  $NH_4Co_2OH(MoO_4)_2 \cdot H_2O$   
doi:10.1017/S0885715623000350      240
- Lingling Shi, Zhengguo Chen, Hany Kafafy, Zhaoxia Zhang, Guocheng Zhu, Juming Yao and Guoqing Zhang      Synthesis, powder diffraction pattern, crystal structure determination of the pharmaceutical co-crystal of levetiracetam and 3,5-dinitrosalicylic acid  
doi:10.1017/S0885715623000374      244
- Klaudia Nowakowska and Wiesław Łasocha      X-ray powder diffraction data for three new compounds obtained as a result of  $CO_2$  capture  
doi:10.1017/S0885715623000404      253

## CALENDARS OF MEETINGS, SHORT COURSES AND WORKSHOPS

- Gang Wang      Calendar of short courses and workshops  
doi:10.1017/S0885715623000386      259
- Gang Wang      Calendar of Forthcoming Meetings  
doi:10.1017/S0885715623000362      260

## INTERNATIONAL REPORT

- Stephanie Jennings      72nd Annual Denver X-ray Conference Report  
doi:10.1017/S0885715623000349      261

**On the Cover:** The cover figure was prepared using figures from the manuscript “Synthesis, powder diffraction pattern, crystal structure determination of the pharmaceutical co-crystal of Levetiracetam and 3,5-dinitrosalicylic acid” by Lingling Shi, Zhejiang Sci-Tech University, Hangzhou, China and coauthors.

The upper left figures shows that the co-crystal is distinctly different from either of the constituent components. The upper right shows the experimental and simulated patterns of the co-crystal. The lower figure shows the derived molecular structure of the LEV-DNS co-crystal that was characterized by infrared spectroscopy, powder X-ray diffraction and single-crystal X-ray diffraction.
