

Building a bigger, better MUSE

The online collection of scholarly journals in *Project MUSE*® now includes the full text of over 150 titles, published by nearly 30 university and society presses! By merging these titles into a single database, MUSE provides scholars with the critical content they need, combined with all of the benefits of electronic subscriptions, including full-text and field searching, easy navigation, and full campus availability 24 hours a day. With our expanded list, faster servers and increased searching options, your users will find research has never been easier. And as a librarian, there's no better value for your dollar—the list price is much less than the cost of subscribing to these titles in print. Our flexible subscription options include discipline-oriented packages and single-title ordering to best meet your collection development needs. Substantial discounts are also offered for consortium, smaller and special libraries. Contact us now to see why there's more to MUSE than ever before.

MUSE now offers peer-reviewed journal content in the following subject fields:

- African American studies and literature
- Asian culture and history
- Business and economics
- Classics
- Cultural studies
- Demography
- Education
- Ethics
- Film studies
- Gender studies
- History
- Higher education
- Health policy
- Literary theory and criticism
- Medieval studies
- Music
- Native American studies
- Philosophy
- Poetry
- Political science and theory
- Psychology and psychiatry
- Religious studies
- Sociology
- Theater and performing arts

Project MUSE®
Setting the standard for scholarly electronic journals in the humanities and social sciences.
