JOURNALS

The Journal of Agricultural Science

Senior Editor (Animal papers)

Julian Wiseman, *University of Nottingham, UK*

Senior Editor (Crops & Soils papers)

Paul Bilsborrow, *Newcastle University, UK*

The Journal of Agricultural Science publishes papers concerned with the advance of agriculture and the use of land resources throughout the world. It publishes original scientific work related to strategic and applied studies in all aspects of agricultural science, including: crop and animal physiology, modelling of crop and animal systems, the scientific underpinning of agronomy and husbandry, engineering solutions, decision support systems, land use, environmental impacts of agriculture and forestry, impacts of climate change, rural biodiversity, experimental design and statistical analysis, the application of new analytical and study methods (including molecular studies). The journal also publishes book reviews and letters.

Experimental Agriculture

Editor

Dave Harris, *ICRISAT, Kenya*

Experimental Agriculture publishes the results of original research from any source on the agronomy of field, plantation and herbage crops grown for human or animal food; for industrial purposes; and on systems of agricultural production, particularly in the warmer regions of the world. It is especially concerned with experimental work designed to explain agronomic results in biological and environmental terms. The journal publishes accounts of new experimental techniques, new methods of crop production and discusses problems in countries where production is developing rapidly. There are regular book reviews and occasional, often invited, reviews of research.

Seed Science Research

The official journal of the International Society for Seed Science (ISSS)

Editor-in-Chief

H.W.M. Hilhorst, Wageningen University, The Netherlands

Seed Science Research is an international journal publishing original and opinion papers, as well as reviews. The Journal deals primarily with the fundamentals of seed research with emphasis on the physiology, biochemistry, molecular biology and ecology of seed development, dormancy and germination.

The importance of seeds to propagation, food, biofuel and biodiversity is of increasing interest and therefore submissions on seed genetics, seed biotechnology, seed treatment and seedling establishment are especially encouraged if they are novel and 'seed driven'.

Instructions to authors for the submission of manuscripts to *Plant Genetic Resources: Characterization and Utilization* can be found at journals.cambridge.org/pgr/afc

Plant Genetic Resources Characterization and Utilization

Contents

In this Issue

<i>Robert Koebner</i>	95
Genetic diversity of on-farm selected olive trees in Moroccan traditional olive orchards <i>Ahmed El Bakkali, Hicham Haouane, Amal Hadiddou, Ahmed Oukabli, Sylvain Santoni, Sripada M. Udupa, Patrick Van Damme and Bouchaib Khadari</i>	97
Evaluation of tomato accessions for flavour and flavour-contributing components <i>Dilip R. Panthee, Joanne A. Labate and Larry D. Robertson</i>	106
Inducing variability in multi-cut forage sorghum through mutagenesis <i>S. K. Pahuja, C. Aruna, P. K. Shrotria, Simarjit Kaur, B. R. Ranwah and J. V. Patil</i>	114
Genetic diversity of two Indian common bean germplasm collections based on morphological and microsatellite markers <i>P. N. Sharma, L. M. Díaz and M. W. Blair</i>	121
Genetic diversity among potato species as revealed by phenotypic resistances and SSR markers <i>D. Carputo, D. Alioto, R. Aversano, R. Garramone, V. Miraglia, C. Villano and L. Frusciante</i>	131
Molecular characterization of oil palm <i>Elaeis guineensis</i> Jacq. materials from Cameroon <i>Diana Arias, Carmenza Montoya and Hernán Romero</i>	140
Seed oil content and fatty acid composition in a genebank collection of <i>Cucurbita moschata</i> Duchesne and <i>C. argyrosperma</i> C. Huber <i>Robert L. Jarret, Irvin J. Levy, Thomas L. Potter, Steven C. Cermak and Laura C. Merrick</i>	149
Exploring the wider potential of forage legumes collected from the highlands of Eritrea <i>Richard Snowball, Amanuel Mahdere, Eskender Tesfay, Mehreteab Aberra, Regina M. Carr and Mario F. D'Antuono</i>	158
Genetic diversity of cassava (<i>Manihot esculenta</i> Crantz) landraces and cultivars from southern, eastern and central Africa <i>R. S. Kawuki, L. Herselman, M. T. Labuschagne, I. Nzuki, I. Ralimanana, M. Bidiaka, M. C. Kanyange, G. Gashaka, E. Masumba, G. Mkamilo, J. Gethi, B. Wanjala, A. Zacarias, F. Madabula and M. E. Ferguson</i>	170
Short Communication	
Direct multiplex PCR for grapevine genotyping and varietal identification <i>Daniele Migliaro, Giacomo Morreale, Massimo Gardiman, Sara Landolfo and Manna Crespan</i>	182
