

PROCEEDINGS

OF THE

EDINBURGH MATHEMATICAL SOCIETY

CONTENTS

P. HOLGATE: Genetic Algebras Associated with Polyploidy	<i>page 1</i>
T. T. WEST: Operators with a Single Spectrum	<i>page 11</i>
B. L. R. SHAWYER: Theorems on Strong Riesz Summability Factors	<i>page 19</i>
R. M. YOUNG: On the Cauchy Problem for the n -Dimensional Wave Equation	<i>page 29</i>
K. N. SRIVASTAVA: A Class of Integral Equations Involving Laguerre Polynomials as Kernel	<i>page 33</i>
DRURY W. WALL: Characterisations of Generalised Uniserial Algebras. III	<i>page 37</i>
JERRY L. FIELDS: A Note on the Asymptotic Expansion of a Ratio of Gamma Functions	<i>page 43</i>
Y. SITARAMAN: A Note on Logarithmic Summability (L)	<i>page 47</i>
JOHN S. ROSE: On a Splitting Theorem of Gaschütz	<i>page 57</i>
M. N. BREARLEY: The Simple Pendulum with Uniformly Changing String Length	<i>page 61</i>
C. SUDLER, JR.: Two Enumerative Proofs of an Identity of Jacobi	<i>page 67</i>
J. S. LOWNDES: Dual Integral Equations with Trigonometric Kernels	<i>page 73</i>
BOOK REVIEWS	<i>page 75</i>
MATHEMATICAL NOTES	
D. H. PARSONS: Transformations of which the Partial Differential Equation of Heat Flow is a Differential Invariant	<i>page 85</i>
D. H. PARSONS: A Transformation of which the Equation of Telegraphy is a Differential Invariant	<i>page 87</i>

OLIVER AND BOYD

EDINBURGH: TWEEDDALE COURT

LONDON: 39A WELBECK STREET, W.1

THE EDINBURGH MATHEMATICAL SOCIETY

The Edinburgh Mathematical Society was instituted in 1883 for the promotion and extension of Mathematical Science—Pure and Applied.

Candidates for membership are nominated at one Ordinary Meeting of the Society and the candidature is voted upon at the next, a majority of at least two-thirds of the members present being necessary for election. Ordinary Members pay subscriptions to the funds of the Society at the times and of the amounts specified in the Rules. Members whose subscriptions are not in arrears receive free of charge one copy of each of the Society's publications. Additional copies and back numbers—as far as these are in print—are charged at a discount on the published price. Further information regarding membership may be obtained from the Secretary.

PROCEEDINGS OF THE EDINBURGH MATHEMATICAL SOCIETY AND THE EDINBURGH MATHEMATICAL NOTES

The Society publishes the Proceedings of the Edinburgh Mathematical Society which contains papers embodying the results of research that is original in matter or manner and a section entitled *Notes* containing material of a less specialised nature. Members of the Society may submit papers for consideration with regard to publication; papers from non-members can be communicated by a member. Manuscripts of papers received cannot be accepted if not in a form suitable for submitting to the printer. Authors are advised to retain a copy of anything they may send for publication as the Society cannot accept responsibility for any loss. Manuscripts of papers for publication should be sent in the first instance to the Secretary.

Series I of the Proceedings consists of forty-four volumes published from 1886 to 1926. Series II consists of thirteen complete volumes to date.

The Proceedings are published in parts and issued twice yearly. Four parts complete a volume of approximately 200 pages, and the Title Pages and Index are published in part 4 of each volume.

The prepaid subscription per volume is 60s. (U.S.A. and Canada \$10.00) post free. Single parts 15s. (U.S.A. and Canada \$2.50) net. Orders, and requests for prices and availability lists of in-print back numbers, should be addressed to the publishers,

Oliver and Boyd
Tweeddale Court
14 High Street
Edinburgh 1

The Secretary will be pleased to receive gifts of back numbers of the Proceedings as certain of these are scarce and there is a demand from libraries for them.

All communications concerning the Library should be addressed to

The Librarian
The Edinburgh Mathematical Society
20 Chambers Street
Edinburgh 1

All other communications should be addressed to

The Secretary
The Edinburgh Mathematical Society
