

ADDENDUM

# Using Twitter to track immigration sentiment during early stages of the COVID-19 pandemic—ADDENDUM

Francisco Rowe, Michael Mahony, Eduardo Graells-Garrido, Marzia Rango and Niklas Sievers

DOI: [10.1017/dap.2021.38](https://doi.org/10.1017/dap.2021.38) Published online by Cambridge University Press: 28 December 2021.

The editors and publisher of *Data & Policy* have awarded the Open Data and Open Materials badges to this article Rowe F, et al. (2021).

Open Data Badge—indicates that data necessary to reproduce the reported results are available in an open access repository, under an open license, with an accompanying description of the data.

Open Materials Badge—indicates that any infrastructure, instruments, or equipment related to the reported methodology is available in an open access repository and is described in sufficient detail to allow a researcher to reproduce the procedure.

The original article has been updated to include the badges.

The Data Availability Statement has also been updated to link through to the Open Data and Materials.
