TREATMENT OF INEBRIATES—GENTLEFOLK ONLY.—Dr. STEWART, of "Dunmurry," Sneyd Park, near Clifton (a teetotal home, Estd. 1876), and Mrs. S. receive as voluntary boarders in their family three Ladies and three Gentlemen of good social position anxious to be *permanently* cured of inebriety. Refined society. Bracing air. No "nervous" cases received. No legal formalities.

Telegrams: "Dr. STEWART, Dunmurry, Rockleaze, Bristol."

Telegrams: "PFLEGERIN, LONDON."

**THE AUXILIARY
NURSES' SOCIETY,
10, ORCHARD STREET,
PORTMAN SQUARE, LONDON, W.**

PLEASE ADDRESS ALL COMMUNICATIONS TO
MISS ISLIP, Secretary, at above address.

The above Co-operative Association has been founded for the supply of thoroughly trained nurses who are Members of the Royal British Nurses' Association, and who in addition to their hospital work have had some years' experience in private nursing.

Considerable difficulty is frequently experienced by medical men in obtaining permanent nurses for prolonged and chronic cases, and to supply this want is one of the main objects of the Society.

It aims also at meeting the need for a body of nurses qualified by their age and experience to undertake cases in which either on account of the nature of the malady, or of the circumstances of the patient, it is undesirable to employ the services of younger women. All the nurses on the staff have been very carefully selected with a view to their physical fitness for their duties as well as their nursing qualifications.

Male Nurses' (TEMPERANCE) Co-operation,

Only Address—10, THAYER STREET, MANCHESTER SQUARE, W.

Superior Trained MALE NURSES for Medical, Surgical, Mental, Dipsomania, Fever, and Travelling Cases supplied at a moment's notice, Day or Night. All Nurses supplied by this Association are TOTAL ABSTAINERS. SKILLED MASSEURS supplied. Terms: £1 11s. 6d. to £2 2s. or upwards per week. Nurses to receive their own fees. F. ROUSE, Secretary.

Telegraphic Address "Assuaged, London." Telephone 538 Paddington.

CAUTION.—Certain persons having no connection with this Association are copying our Business Cards and Advertisements, adding a different Address.

Specimens Post Free.		John Bale, Sons, & Danielsson, LIMITED, 88—89, GREAT TITCHFIELD STREET, LONDON, W. BRAIN-DIAGRAMS, etc., for Clinical Records, etc. Medical Printing and Illustrations a Speciality. CONTRACTORS TO H.M. CIVIL MED. DEP.
----------------------	---	---

TEMPERANCE MALE NURSES' CO-OPERATION LIMITED,

15, Gt. Marylebone Street, Portland Place, London, W.
Branch Office: 176, Oxford Street, Manchester.

Incorporated under the Industrial and Provident Societies' Act, 1890. (Regd. No. 3685.)

Established to promote Total Abstinence among Male Nurses, and to secure for them the full remuneration for their work.

Highly-trained Male Nurses supplied for Medical, Mental, Surgical, Catheter, Dipsomania, Travelling, and all cases. Nurses reside on the premises, and are always ready for urgent calls day or night. Skilled Masseurs and good Valet Attendance supplied. Terms from £1 11s. 6d.

A commodious Nursing Home, modernly furnished, electric light throughout, and under the charge of a thoroughly experienced matron, in connection. Medical, Surgical, and Nervous cases can be received. Terms from 3 guineas per week. Cubicle ward for Male patients, 2 guineas.

Telephone, 1472 Paddington. Telegrams, "Factear, London." Address all communications to

M. D. GOLD, Secretary.

Telegrams, "Factear, Manchester." Telephone, 5213 (Central) Manchester.

W. BLADES, Secretary, Manchester.

ALWAYS USE

ILLUSTRATED CATALOGUES AND ESTIMATES FREE.

Secretaries and Clerks of Institutions are respectfully requested, when issuing Contracts, to forward a Form of Tender to ATKINSON & Co.

SPECIAL CATALOGUE POST FREE ON APPLICATION.

THE THYROID TREATMENT

and the Preparations Manufactured by
ALLEN & HANBURY'S LTD.

Myxœdema.—The relief afforded to cases of Myxœdema by the use of the Thyroid Gland during the last five years has marked a totally new departure in the history of medicine. We are beginning to understand the physiological importance of Internal Secretions to the animal economy.

Myxœdema has been recognised as long ago as 1874 by Sir Wm. Gull as a distinct disease, and before that time it had been found that animals invariably succumbed after total extirpation of the Thyroid.

Cretinism, too, had long been recognised to be connected with congenital absence or deficiency in the glandular structure of the Thyroid.

Time enough has now elapsed to prove that those cases of Myxœdema which have been restored to health maintain that condition as long as they continue to take the gland or efficient preparation of its extract.

Sporadic Cretinism.—As regards Sporadic Cretinism, we cannot do better than refer the reader to an original article which appeared in the *Lancet*, with Photographs, by W. W. O—, M.D. Oxon., M.R.C.P. London, November 4th, 1893, p. 1113.

All these cases were treated by Allen and Hanbury's Thyroidin Tablets. The results are perhaps more remarkable than those obtained in the allied condition of Myxœdema. The writer observes that these Preparations have given entire satisfaction. The Photographs speak for themselves.

The success attending the use of Thyroid Extract in the Myxœdematous condition of the skin and its appendages has suggested its employment in various skin lesions.

Psoriasis.—Very good results have been attained in some cases of obstinate psoriasis by using Thyroidin Tablets.

In a recent number of the *Lancet* three of these cases are reported. After treatment with iodide of potassium and arsenic internally, and chrysophanic acid ointment locally, showed no improvement, but, on the other hand, the disorder was in some cases aggravated, developing a general dermatitis of the face with febrile disturbance.

But on the treatment being changed, and TABLETS OF THYROID GLAND (ALLEN AND HANBURY'S) being administered, the writer observes:

Case 1.—“The improvement was very striking. . . the scales were completely gone, and all that was left was a slight discoloration of the skin where the disease had appeared.”

Case 2.—“The scalp and limbs were nearly clear. . . The patient, who has suffered from the disease for nineteen years past, has had no discomfort from the remedy, and says that nothing has ever acted so rapidly upon his disease.”

Case 3.—“The result was astonishing, for in three days there was a marked improvement, and no further spread of the disease had taken place. No discomfort was experienced from the remedy.”

For full details of the above quotations see the *Lancet*, January 6th, 1894, p. 19.

Whilst formerly liquid extracts and the raw gland were used, ALLEN AND HANBURY'S were the first to offer the active principles of the Thyroid Gland in the compressed form, which is now the favourite mode of administration. The glands are dissected and carefully examined and separated from all blood, fat, and inert tissue, which readily decompose and produce gastric disturbances, vomiting, &c., and which give to some preparations on the market a most repulsive smell, especially when they have been kept for a short time.

THYROIDIN TABLETS

Readily disintegrate when swallowed, and from their shape and size are taken without difficulty. If preferred, they may be dissolved in a little water before being swallowed.

One Tablet equals 5 grs. of Gland. Dose: 1 or 2.

THYROIDIN CACHETS

Contain 5 grs. of Thyroidin in each. Dose: 1 or 2. A very suitable and convenient mode of taking Thyroidin.

ELIXIR THYROIDIN

Is a very palatable, slightly sweet preparation, of which one fluid ounce represents one Gland (average). It will be found to keep well without change. Dose: 1 to 4 fluid drachms.

The above are put up in 1s., 2s. 6d., and 4s. 6d. packages (retail), or 8s., 21s., and 40s. per doz. to the Profession.

SAMPLES SUPPLIED TO THE PROFESSION ON APPLICATION.
