

## Index of Subjects

- Aeromonas*, adhesion to, sp. to cell lines used as models for intestinal adhesion. 465
- Aeromonas*, distribution of, phenospecies and genospecies among strains isolated from water, foods or from human clinical samples. 39
- Amblyomma hebraeum*, laboratory reared, and *Amblyomma variegatum* ticks differ in their susceptibility to infection with *Cowdria ruminantium*. 345
- Amblyomma variegatum*, laboratory reared *Amblyomma hebraeum* and, ticks differ in their susceptibility to infection with *Cowdria ruminantium*. 345
- Antibiotic resistant, control of infection with multiple, bacteria in a hospital renal unit: the value of plasmid characterization. 61
- $\beta$ -Lactam resistance in normal faecal flora from South Africa. 243
- Burkholderia pseudomallei*, RAPD analysis of isolates of, from patients with recurrent melioidosis. 115
- Campylobacter, effect of changes in processing to improve hygiene control on contamination of poultry carcasses with. 495
- Campylobacter jejuni*, comparison of PFGE, ribotyping and phage-typing in the epidemiological analysis of, serotype HS2 infections. 215
- Campylobacter, the Public Health Laboratory Service national case-control study of primary indigenous sporadic cases of, infection. 15
- Campylobacter, the speciation and subtyping of, isolates from sewage plants and waste water from a connected poultry abattoir using molecular techniques. 485
- Canoeists, a serosurvey of water-borne pathogens amongst, in South Africa. 299
- Cowdria ruminantium*, laboratory reared *Amblyommas hebraeum* and *Amblyomma variegatum* ticks in their susceptibility to infection with. 345
- Cowpox, serological evidence for the reservoir hosts of, virus in British wildlife. 185
- Cryptosporidiosis, an outbreak of, associated with a resort swimming pool. 545
- Cryptosporidiosis, an outbreak of, in South London: what value the *p* value. 279
- Cryptosporidiosis, an outbreak of waterborne, associated with a public water supply in the UK. 123
- Cryptosporidiosis, outbreak of, associated with a disinfected groundwater supply. 555
- Entamoeba histolytica*, prevalence of antibodies against, in Mexico measured by ELISA. 535
- Escherichia coli*, characterization of verocytotoxin-producing, O157 isolates from patients with haemolytic uraemic syndrome in Western Europe. 1
- Escherichia coli*, isolation of enterotoxigenic, from British troops in Saudi Arabia. 455
- Escherichia coli*, the role of heightened surveillance in an outbreak of, O157, H7. 447
- Faecal contamination on children's hands and environmental surfaces in primary schools in Leeds. 527
- Foot-and-mouth disease, antigenic analysis of SAT 2 serotype, virus isolates from Zimbabwe using monoclonal antibodies. 193
- Genital warts, hand-genital transmission of? An analysis of prevalence data. 169
- Haemolytic uraemic syndrome, characterization of verocytotoxin-producing *Escherichia coli* O157 isolates from patients with, in Western Europe. 1
- Haemophilus influenzae*, epidemiology of invasive, infections in England and Wales in the pre-vaccination era (1990–2). 89
- Hepatitis A, prevalence of, antibody among disadvantaged gypsy children in northern Spain. 157
- HIV-1, inactivation of, by chemical disinfectants: sodium hypochlorite. 567
- Influenza, analysis of, a virus reinfection in children in Japan during 1983–91. 591

- Influenza. study of the effectiveness of, vaccination in the elderly in the epidemic of 1989–90 using a general practice database, 581
- Jembrana. the transmission of, disease, a lentivirus disease of *Bos javanicus* cattle, 367
- Legionella pneumophila*. molecular characterization of a virulence-associated epitope on the lipopolysaccharide of, serogroup 1, 71
- Legionella*. relationship between, spp. and antibody titres at a therapeutic thermal spa in Portugal, 79
- Listeria*. occurrence of, species in ready to eat foods, 519
- Measles. interpretation of serological surveillance data for, using mathematical models: implications for vaccine strategy, 139
- Measles. priorities in global, control: report of an outbreak in N'Djamena, Chad, 309
- Measles vaccination policy, 603
- Measles vaccine efficacy during an outbreak in a highly vaccinated population: Incremental increase in protection with age at vaccination up to 18 months, 315
- Meningococcal, epidemiological investigation of an outbreak of, meningitis in Makkah (Mecca), Saudi Arabia, 1992, 399
- Meningococcal, targeted vaccination with, polysaccharide vaccine in one district of the Czech Republic, 411
- Oysters. an outbreak of viral gastroenteritis associated with adequately prepared, 163
- Pandemics, virology research and virulent human, 377
- Poliomyelitis in the Netherlands: a review of population immunity and exposure between the epidemics in 1978 and 1992, 289
- Rattus norvegicus*. cryptosporidiosis reservoir in wild brown rats, in the UK, 207
- Rickettsial, evidence for a high prevalence of spotted fever group, infections in diverse ecological zones of Inner Mongolia, 177
- Salmonella enteritidis*. chaos under canvas: a, PT 6B outbreak, 513
- Salmonella outbreak from microwave cooked food, 227
- Salmonellosis, a pseudo-outbreak of, 31
- Salmonellosis, nationwide outbreak of human, in Germany due to contaminated paprika and paprika-powdered potato chips, 501
- Schistosoma mansoni*. the development of an age structured model for schistosomiasis transmission dynamics and control and its validation for, 325
- Staphylococcus aureus*. analysis of methicillin-resistant and methicillin-susceptible, by a molecular typing method based on coagulase gene polymorphisms, 419
- Staphylococcus aureus*, carriage of, among 104 healthy persons during a 19-month period, 51
- Streptococcal, a cluster of cases of, necrotizing fasciitis in Gloucestershire, 387
- Streptococcus pyogenes*. clonal structure of invasive, in Northern Scotland, 231
- Tick-borne encephalitis, roe deer as sentinels for endemicity of, virus, 355
- Trimethoprim. prevalence and genetic location of non-transferable, resistant dihydrofolate reductase genes in South African commensal faecal isolates, 255
- Tuberculosis in Inner London: evidence for an increase in young adults and immigrants, 133
- Typhoid, infecting dose and severity of: analysis of volunteer data and examination of the influence of the definition of illness used, 23
- Vibrio cholerae*. an epidemiological study of, O1 in the Australian environment based on rRNA gene polymorphisms, 435
- Vibrio cholerae*. biotype traits and antibiotic susceptibility of, serogroup O1 before, during and after the emergence of the O139 serogroup, 427
- Viral gastroenteritis. an outbreak of, associated with adequately prepared oysters, 163
- Whooping cough. application of pulsed field gel electrophoresis to the 1993 epidemic of, in the UK, 101
