

THE PREHISTORY OF BOHEMIA IN 7 VOLUMES

INSTITUTE OF ARCHAEOLOGY OF THE ACADEMY OF SCIENCES OF THE CZECH REPUBLIC, PRAGUE
2013–2014

The Institute of Archaeology in Prague is issuing a 7-volume compendium on the prehistory of Bohemia, which presents the current state of research and includes an overview of sources, questions, and interpretations of data. The series offers a systematic outline of the separate periods – from the Palaeolithic to the Migration Period in Bohemia. The volumes are formally consistent in structure, but the theoretical points of departure, methodological approaches and emphasis on specific subjects reflect the views of the individual editors and teams of authors. In terms of the proportion between the quantity of information and the extent of the territory investigated, the series represents one of the most detailed overviews of prehistory devoted to a particular region. The publication is intended for researchers and students who need basic information on the prehistory of Bohemia, along with detailed documentation and references.

- | | |
|--|--------|
| 1. The Palaeolithic and Mesolithic | 40 Eur |
| 2. The Neolithic | 35 Eur |
| 3. The Eneolithic | 40 Eur |

Heritage Technology Ltd

Heritage Sector IT Specialists

3D Visualisation

- ✔ Digital visualisation of objects, buildings & landscapes
- ✔ Photo-realistic, high quality historical reconstructions

- ✔ Services for visitor attractions, academia & commercial projects
- ✔ Individually tailored to fit **all** requirements & budgets
- ✔ Services also include web design & digital archaeological support

Heritage Technology specialises in creating highly realistic 3D visualisations from historical & archaeological data. Digital reconstruction is a proven technique in both academic & commercial archaeology for portraying often complex spatial & temporal data in an accessible and engaging way.
