Spelling, capitalization, and punctuation must be consistent within each article and conform with the Thirteenth Edition of *The Chicago Manual of Style* (University of Chicago Press).

Books for review should be sent to the Book Review Editor: Professor Margaret Schabas, Department of History of Science, 4143 Helen White Hall, University of Wisconsin, Madison, WI 53706.

Preparation of manuscript. A separate title page should be prepared carrying the article title, auxiliary short title (not over 50 characters), author's full name (in the form preferred for publication), and author's affiliation (including full mailing address and phone number) Because blind reviewing will be employed, authors are asked to identify themselves only on the title page.

The entire manuscript (including notes and references) should be typed double-spaced on 8½ by 11 inch or A4 paper, with wide margins for copy editing. Manuscript pages should be numbered consecutively.

Figures. If the manuscript is accepted for publication, the author must provide figures that are ready for photographic reproduction; they cannot be redrawn by the publisher, unless the author pays for the cost of such work. Charts, graphs, or other artwork must be drawn by a professional artist or computer generated on a laser printer, in black ink on white paper, and should remain legible after a 50% reduction. All labels and details on figures should be clearly printed (or done in transfer type of a sans-serif face such as Helvetica).

References and notes. Bibliographic citations in the text must include the author's last name and the date of publication and may include page references: (Bryant, 1980, pp. 335–44). When an author's name is part of the text, the following form should be used: "Bryant (1980,

pp. 335–44) maintained that" When a work by two or more authors is referred to, all names should be given in the first citation: (Kravis, Heston, and Summers, 1978), with subsequent citations of the form (Kravis et al., 1978). When separate works are referred to within the same parentheses, they should be listed in alphabetical order. Those by the same author should be separated by commas and those by different authors by semicolons: (Fuss and McFadden, 1978; Georgescu-Roegen, 1971, 1976).

Complete bibliographic information for each citation should be included in the list of references. References should be typed in alphabetic order using the style of the following examples:

Arrow, Kenneth J. 1974. *The Limits of Organization*. New York: Norton.

Bryant, John. 1980. "A Model of Reserves, Bank Runs, and Deposit Insurance." *Journal of Banking and Finance* 4:355–64.

Fuss, Melvyn, and McFadden, Daniel (editors). 1978. *Production Economics: A Dual Approach to Theory and Applications*. Amsterdam: North Holland.

Georgescu-Roegen, 1976. "Chamberlain's New Economics and the Unit of Production." In *Monopolistic Competition Theory: Studies in Impact*, edited by Robert E. Kuenne, pp. 31–62. New York: Wiley.

Titles of journals may *not* be abbreviated.

When more than an in-text citation is called for, footnotes may be used. These should be numbered consecutively throughout the text and typed at the bottom of the page in which they are cited. Source citations within footnotes follow the same style as citations in text.

Copyediting and proofreading. The publishers reserve the right to copyedit and proofread all articles accepted for publication, but authors will be consulted in the case of any substantial changes. Page proofs of article will be sent to the lead author for correction of typographical errors only.

General. The lead author will receive 25 offprints of his or her article free of charge; additional numbers may be purchased if ordered at proof stage. Submission of an article implies that it has not been published elsewhere. Authors are responsible for obtaining written permission to publish material for which they do not own the copyright. Contributors will be asked to assign their copyrights, on certain conditions, to Cambridge University Press.
