*Sayang Sculpture* (1994)  
by Joseph McNally (1923–2002)

The Sayang Sculpture is the work of the late Brother Joseph McNally, who was the ex-President of LaSalle College of Arts, Singapore. It is now displayed in the front lobby of the Institute of Mental Health, Singapore. The sculpture depicts an individual caring for another person who is kneeling and trying to rise up. The word *sayang* means 'love' or 'care'. The sculpture is a tribute to the staff at the Institute of Mental Health and their caring spirit towards psychiatric patients. The sculpture, which is prominently displayed in the hospital entrance, encourages each member of staff who walks by it to remember their duty to patient care.
