# Plant Genetic Resources: Characterization and Utilization

Volume 10 2012 ISSN: 1479-2621

## Aims and Scope

The journal provides a forum for describing the application of novel genomic technologies, as well as their integration with established techniques, towards the understanding of the genetic variation captured in both *in situ* and *ex situ* collections of crop and non-crop plants; and for the airing of wider issues relevant to plant germplasm conservation and utilisation. We particularly welcome multi-disciplinary approaches that incorporate both a technical and a socio-economic focus.

Technical aspects can cover developments in technologies of potential or demonstrated relevance to the analysis of variation and diversity at the phenotypic and genotypic levels; the development of rational germplasm collection, evaluation and conservation strategies; and the impact of crop genetic modification and biotechnology on plant genetic resources. Authors should note that the journal will not review submissions using the RAPD marker system, except where very large numbers of assays place a cost limitation on the analysis, or where RAPD data is combined with, and is co-analysed with other forms of descriptive data, which allows an objective means of assessing the credibility of the RAPDs.

Non-technical aspects can include ethical, legal, commercial and social issues of relevance, in particular relating to farmers' rights, intellectual property and ethnobotany.

## Contents

In this Issue	
<i>Robert Koebner</i> . . . . .	95
Short Communication	
Genetic variation among laboratory accessions of Chinese Spring wheat ( <i>Triticum aestivum</i> L.) <i>I. W. Mott and R. R.-C. Wang</i> . . . . .	97
Genetic relationships among <i>Prunus</i> rootstocks for sweet cherry ( <i>Prunus avium</i> L.) cultivars <i>Z. Turkoglu, A. Koc, S. Ercisli, S. Bilgener, M. Akbulut, N. Yildirim, R. Gercekcioğlu, A. Esitken and M. Gunes</i> . . . . .	101
Microsatellite markers reveal promising genetic diversity and seed trait associations in common bean landraces ( <i>Phaseolus vulgaris</i> L.) from Nicaragua <i>O. R. Jiménez and H. Korpelainen</i> . . . . .	108
Establishment of a cassava ( <i>Manihot esculenta</i> Crantz) core collection based on agro-morphological descriptors <i>Ranjana Bhattacharjee, Dominique Dumet, Paul Ilona, Soyode Folarin and Jorge Franco</i> . . . . .	119
Priority areas to collect germplasm of <i>Malacomeles</i> ( <i>Rosaceae</i> ) in Mexico based on diversity and species richness indices <i>Carlos A. Núñez-Colín, Miguel Á. Hernández-Martínez, Diana Escobedo-López and Carlos Ortega-Rodríguez</i> . . . . .	128
Short Communication	
Reliability of germination testing of <i>ex situ</i> conserved seeds: a genebank case study on outsourced analyses <i>Theo van Hintum and Rob van Treuren</i> . . . . .	134
Short Communication	
Mapping wheat powdery mildew resistance derived from <i>Aegilops markgrafii</i> <i>Annette Weidner, Marion S. Röder and Andreas Börner</i> . . . . .	137
Short Communication	
New genetic resource in <i>Capsicum</i> L. from Eastern Himalayas <i>Timir Baran Jha, Arpita Dafadar and Animesh Ghorai</i> . . . . .	141
Characterization of olive germplasm by chemical oil components and morphological descriptors in Basilicata region (Italy) <i>V. Alba, V. Bisignano, A. Rotundo, G. B. Polignano and E. Alba</i> . . . . .	145
Short Communication	
Screening a diverse collection of <i>Artemisia annua</i> germplasm accessions for the antimalarial compound, artemisinin <i>James Cockram, Colin Hill, Corrinne Burns, Randolph R. J. Arroyo, Jack G. Woolley, Ian Flockart, Trevor Robinson, Christopher J. Atkinson, Michael J. Davies, Nigel Dungey, Andy J. Greenland, Lydia L. M. J. Smith and Steven Bentley</i> . . . . .	152
Ecological and sanitary characteristics of the Eurasian wild grapevine ( <i>Vitis vinifera</i> L. ssp. <i>sylvestris</i> (Gmelin) Hegi) in Georgia (Caucasian region) <i>Rafael Ocete Rubio, Elvira Ocete Rubio, Carlos Ocete Pérez, M. Ángeles Pérez Izquierdo, Laura Rustioni, Osvaldo Failla, Ramaz Chipashvili and David Maghradze</i> . . . . .	155

**Publisher:** Katy Christomanou

*Plant Genetic Resources: Characterization and Utilization* is an international journal published tri-annually by Cambridge University Press in April, August and December on behalf of NIAB. The online edition is available at [journals.cambridge.org/pgr](http://journals.cambridge.org/pgr).

## **Special sales and supplements:**

This Journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The Journal also publishes proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at the Cambridge address above.

## **Subscription information:**

The subscription rates for Volume 10, 2012 (3 issues) are:

Institutional subscription

Internet/Print Package £347.00/\$665.00 (Americas only)

Internet only £267.00/\$515.00 (Americas only)

Print only £320.00/\$577.00 (Americas only)

Any **supplements** to this Journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Back volumes** are available. Please contact CUP Publishing for further information.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of

publication. Replacement copies supplied after this date will be chargeable.

**US POSTMASTERS:** please send address corrections Plant Genetic Resources USA address.

## **Information for Authors:**

Please email manuscript (with any accompanying figures or tables) to the Journal Administrator Faye Kalloniatis at [plantgeneticresources@googlemail.com](mailto:plantgeneticresources@googlemail.com)

**Notes for Authors** are available on the internet at [journals.cambridge.org/pgr](http://journals.cambridge.org/pgr)

**Offprints:** The corresponding author of an accepted paper will receive a pdf offprint. Additional offprints are available for a fee and should be ordered at proof stage. **No page charges or submission charges are levied by this journal.**
