

Two Cheers for Anarchism

Six Easy Pieces on Autonomy, Dignity, and Meaningful Work and Play

James C. Scott

“The ambition of this book is compelling and contagious. Combining the populist rhetoric of Thomas Paine with the ferocious satire of Jonathan Swift, James Scott makes a wonderfully simple and potent argument in favor of mutualism, creativity, local knowledge, and freedom. I predict that this will become one of the most influential books in political theory and public debate for the twenty-first century.”

—Georgi Derluguian, author of *Bourdieu’s Secret Admirer in the Caucasus*

Cloth \$24.95 978-0-691-15529-6

War in Social Thought

Hobbes to the Present

Hans Joas & Wolfgang Knöbl

“This book, written by two eminent social theorists, has no parallel. Hans Joas and Wolfgang Knöbl tackle a fundamental problem in historical and contemporary social theory: the conceptualization of war as a fundamental phenomenon in social life. At the same time, they provide a comprehensive review of thinking about war in modern social theory since Hobbes. This book presents an impressive panorama of its subject.”

The Darwin Economy

Liberty, Competition, and the Common Good

Robert H. Frank

With a new afterword by the author

“[I]mpressive, original and thoughtful.”

—Tim Harford, *Financial Times*

“[I]mportant.”

—Nicholas D. Kristof, *New York Times*

“Frank . . . draws on social psychology to shatter many myths about competition and compensation.”

The Second Red Scare and the Unmaking of the New Deal Left

Landon R. Y. Storrs

“This richly detailed and fluently written study forces us to rethink the ideology of New Deal policymakers, both women and men, and the aims of their well-entrenched conservative opponents. As Storrs makes clear, the political conflict that raged during the 1930s and 1940s has, in many ways, continued into our own time.”

—Michael Kazin, author of *American Dreamers*

Accelerating Democracy

Transforming Governance Through Technology

John O. McGinnis

“This is an outstanding book with a timely argument. McGinnis makes the important point that information is accelerating and democratic governance needs to evolve in response to rapid changes in information technology and other scientific fields. The breadth of his analysis and the keen insights he provides at many levels of the problem are impressive.”

—Darrell M. West, author of *Digital Government*

Fighting for the Speakership

The House and the Rise of Party Government

Jeffery A. Jenkins & Charles Stewart III

“This book makes a new and important contribution to our knowledge of the role of speakership contests in the development of party organization in the House of Representatives. Most previous scholarship begins with the observation that majority parties firmly control the House’s top organizational positions. Jenkins and Stewart show that this was not always the case.”

Perspectives on Politics

Published for the American Political Science Association

Editor

Jeffrey C. Isaac, *Indiana University, USA*

Perspectives on Politics seeks to provide a space for broad and synthetic discussion within the political science profession and between the profession and the broader scholarly and reading publics. Such discussion necessarily draws on and contributes to the scholarship published in the more specialized journals that dominate our discipline. At the same time, *Perspectives* seeks to promote a complementary form of broad public discussion and synergistic understanding within the profession that is essential to advancing research and promoting scholarly community.

Perspectives seeks to nurture a political science public sphere, publicizing important scholarly topics, ideas, and innovations, linking scholarly authors and readers, and promoting broad reflexive discussion among political scientists about the work that we do and why this work matters.

Perspectives on Politics is sold ONLY as part of a joint subscription with *American Political Science Review* and *PS: Political Science & Politics*.
