A Biography of Our Urban Planet

Carl H. Nightingale

A sweeping six-continent, six-millennia tour of the world's cities, culminating in the last 250 years, when we vastly accelerated our planetary realms of action, habitat, and impact, courting dangerous new consequences and opening prospects for new hope.

“Majestic in scale, full of fascinating detail about stones, bricks and systems of segregation”  
Jeremy Adelman, author of *Worldly Philosopher: the Odyssey of Albert O. Hirschman*

“History is merely prelude to the future: on a planet of cities, our survival depends on seizing some of the clues this book contains”  
Bill McKibben, author of *Falter: Has the Human Game Begun to Play Itself Out*
