

PARASITOLOGY is published in double issues twice a year. The numbers afterwards are issued in volumes each containing four numbers.

Papers for publication should be sent to Professor D. KELLIN, Molteno Institute, Downing Street, Cambridge. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editors for publication are understood to be offered to *PARASITOLOGY* alone, unless the contrary is stated.

Contributors receive fifty copies of their papers free. Additional copies, not exceeding one hundred (except in special cases), may be had at cost price: these should be ordered when the final proof is returned.

The subscription price, payable in advance, is £5 net per volume, post-free (U.S.A. \$17.00), double numbers 55s. net, postage extra (U.S.A. \$9.50). Subscriptions may be sent to any Bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, N.W. 1.

Enquiries from the U.S.A. should be addressed to the American Branch of the Press at 32 East 57th Street, New York, 22.

BIOLOGICAL ASPECTS OF THE TRANSMISSION OF DISEASE

Edited by C. HORTON-SMITH

This volume contains 22 pages (with discussions) given at a symposium organised by the Institute of Biology with the object of bringing together botanists, zoologists and human and veterinary pathologists on common ground.

The papers are arranged in groups corresponding with the mode of transmission of disease—direct, indirect or cyclical. This arrangement was welcomed by those who attended the symposium and should provide a stimulus to the thoughts of those who read this volume.
