

From the Editor:

In the Summer, 1984 issue of the *Bulletin* we included four "Short Papers" and in this current issue we have seven papers. This is very encouraging, but as of the moment (February, 1985) I have not received any papers for the Summer, 1985 issue. Let me, therefore, issue yet another call for short papers. I would appreciate hearing from any of you who intend to submit papers for the *Bulletin* during the coming year.
