

First Announcement

International Conference on

**FOUR DECADES OF RADIOCARBON STUDIES:
AN INTERDISCIPLINARY PERSPECTIVE**

June 4–8, 1990

University of California Conference Center
Lake Arrowhead, California

This conference will commemorate the beginnings of the use of radiocarbon as a dating, biological and environmental tracer isotope and mark the major contributions that ^{14}C has made to research in archaeology, biochemistry, environmental studies, geochemistry, geology, geophysics, hydrology, and oceanography over the last forty years.

RADIOCARBON will publish these Proceedings in 1991

International Advisory Committee: Ernest C. Anderson, James R. Arnold, Paul E. Damon, Gordon J. Fergusson, Frederick Johnson, Kunihiko Kigoshi, Willem G. Mook, Hans Oeschger, Ingrid U. Olsson, Henry A. Polach, Meyer Rubin, Hans E. Suess, Minze Stuiver, Henrik Tauber, John C. Vogel

Local Arrangements Committee: Rainer Berger, Jonathon E. Ericson, R. E. Taylor

Conference Secretariat: Radiocarbon Laboratory, University of California, Riverside, California 92521 U.S.A. (714) 787-5521.
BITNET: RETAYLOR@UCRVMS

For further details and to receive further announcements, please contact R. E. Taylor at the Conference Secretariat.
