

Parasitology

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2018 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in *Parasitology* may be obtained from the publisher.

Online submission. Authors are encouraged to submit their manuscripts online. Go to <http://mc.manuscriptcentral.com/par/> to open an author's account for *Parasitology*. Manuscript Central is helping to improve the speed of the publication process for the journal.

Front Cover illustration: A schematic illustration of direct and indirect effects of helminths and their products on host immune cells. As shown here, apoptosis occurs in various immune cells during infection with helminths. Helminth-induced apoptosis plays an essential role in parasite survival not only through suppression of anti-parasite immunity, but also via inhibition of immune-mediated tissue injury. From Zakeri, Vol. 144 (13) pp. 1663–1676.

PARASITOLOGY

CONTENTS

REVIEW ARTICLES

Diagnosis of schistosomiasis mansoni: an evaluation of existing methods and research towards single worm pair detection

Paul Ogongo, Thomas M. Kariuki and R. Alan Wilson 1355

An update on sarcocystosis in one-humped camels (*Camelus dromedarius*)

Muhammad A. Saeed, Jane L. Vaughan and Abdul Jabbar 1367

Nuclear transport in *Entamoeba histolytica*: knowledge gap and therapeutic potential

Marina A. Gwaingi and Reena Ghildyal 1378

RESEARCH ARTICLES

Innate immunity and environmental correlates of *Haemoproteus* prevalence and intensity in an opportunistic breeder

Elizabeth M. Schultz, Jamie M. Cornelius, Dustin G. Reichard, Kirk C. Klasing and Thomas P. Hahn 1388

The impact of parasites during range expansion of an invasive gecko

Louise K. Barnett, Ben L. Phillips, Allen C. G. Heath, Andrew Coates and Conrad J. Hoskin 1400

Seasonality of helminth infection in wild red deer varies between individuals and between parasite taxa

Gregory F. Alberly, Fiona Kenyon, Alison Morris, Sean Morris, Daniel H. Nussey and Josephine M. Pemberton 1410

Cryptic species and their utilization of indigenous and non-indigenous intermediate hosts in the acanthocephalan *Polymorphus minutus sensu lato* (Polymorphidae)

Maike Zittel, Daniel Grabner, Andre Wlecklik, Bernd Sures, Florian Leese, Horst Taraschewski and Alexander Martin Weigand 1421

***Theileria parva* antigens recognized by CD8+ T cells show varying degrees of diversity in buffalo-derived infected cell lines**

Tatjana Sitt, Roger Pelle, Maurine Chepkwony, W. Ivan Morrison and Philip Toye 1430

***Haemaphysalis cretacea* a nymph of a new species of hard tick in Burmese amber**

Lidia Chitimia-Dobler, Timo Pfeffer and Jason A Dunlop 1440

The role of spore morphology in horizontal transmission of a microsporidium of *Daphnia*

Hadas Urca and Frida Ben-Ami 1452

Infection patterns and molecular data reveal host and tissue specificity of *Posthodiplostomum* species in centrarchid hosts

Evan C. Boone, Jeffrey R. Laursen, Robert E. Colombo, Scott J. Meiners, Michael F. Romani and Devon B. Keeney 1458

Parasites in space and time: a novel method to assess and illustrate host-searching behaviour of trematode cercariae

Christian Selbach and Robert Poulin 1469

Leg structure explains host site preference in bat flies (Diptera: Streblidae) parasitizing neotropical bats (Chiroptera: Phyllostomidae)

Thomas Hiller, Benjamin Honner, Rachel A. Page and Marco Tschapka 1475

***Marteilia refringens* and *Marteilia pararefringens* sp. nov. are distinct parasites of bivalves and have different European distributions**

R. Kerr, G. M. Ward, G. D. Stentiford, A. Alfjorden, S. Mortensen, J. P. Bignell, S. W. Feist, A. Villalba, M. J. Carballal, A. Cao, I. Arzul, D. Ryder and D. Bass 1483

Haemosporidian parasites missed the boat during the introduction of common waxbills (*Estrilda astrild*) in Iberia

Ricardo J. Lopes, Joana Correia, Helena Batalha and Gonçalo C. Cardoso 1493
