

Global Echoes

Call for Papers

Are you a junior doctor or a medical student with an interest in psychiatry? Do you have experiences, reflections, challenges, or projects you would like to share with the global mental health community?

We'd like to invite you to submit your manuscript to the Global Echoes section of *BJPsych International*.

Why submit to *BJPsych International*?

- Peer-reviewed journal with a global readership, owned by the Royal College of Psychiatrists
- Platform for authors from low- and middle-income countries
- Global Echoes – a dedicated section for psychiatry trainees and medical students
- Digital exposure – videos and podcasts
- Open Access – no publication fees
- Searchable via PubMed, indexed in Scopus and Directory of Open Access Journals (DOAJ)
- Enhanced support – dedicated editorial team

Cover artwork: Head in 4 Parts designed for BJPsych International by Peter Grundy

Peter Grundy (Grundini) is a designer and illustrator who turns complex information into simple visual stories to promote invention and imagination in a world of modern messiness.

At the Royal College of Art in the late 70s Peter Grundy and Tilly Northedge became interested in a visual communication that explained rather than sold things. Over the next 26 years they created a unique visual language with wit and humour at its heart and redefined the once dull area of information design.

In 2006 Peter Grundy started Grundini, venturing beyond information design and into brand and advertising. Anywhere in fact where the complex and perplex needed explaining by simple, elegant, visual messages and ideas.
