

Codices Latini Antiquiores

A Palaeographical Guide to Latin Manuscripts Prior to the Ninth Century Supplement

Edited by E. A. LOWE

This Supplement to *Codices Latini Antiquiores* contains items hitherto unknown to scholars and inevitably omitted in the eleven volumes of the series. There are samples of nearly every pre-Caroline script, and the schools of Luxeuil, Corbie, and Lorsch are particularly well represented. There are specimens of biblical, patristic, and legal texts and interesting writing exercises. 46 plates £15

The Athenian Empire

RUSSELL MEIGGS

Few subjects in Greek history have nourished such lively controversy as the nature of Athenian imperialism in the fifth century B.C. This is a reflection of a changing social and political climate which encourages new questions and new answers to old questions. Thucydides' acid analysis no longer goes unchallenged; it is out of fashion to speak of the political views of Aristophanes. This is the first comprehensive attempt to re-examine all the literary and epigraphic evidence, old and new, in detail. 8 maps £7.50 Forthcoming

The Legacy of Egypt

Edited by J. R. HARRIS

A completely new edition, organized on a different plan, of this important volume in a well known series. The contributors, each an authority in his field, are Richard A. Parker, G. J. Toomer, Erik Iversen, John Harris, A. A. Barb, J. Černý, Georges Posener, Ronald J. Williams, Aristide Théodoridès, Claire Préaux, C. H. Roberts, A. F. Shore, P. L. Shinnie, and Bernard Lewis. Second edition 24 plates 10 text figures £2.50

The Senatorial Aristocracy in the Later Roman Empire

M. T. W. ARNHEIM

Was the Later Roman Empire an absolute monarchy? That is the main question tackled in this book, which analyses the position of the senatorial aristocracy in relation to that of the emperor in the period between the accession of Diocletian and the death of Theodosius (284–395). £5.25

The New Politicians of Fifth-Century Athens

W. ROBERT CONNOR

After the death of Pericles, a new breed of politicians came to power in Athens. Rejecting the traditional source of political support, the bonds of friendship (*philia*), in favour of direct appeals to the people (*demos*) they signalled the emergence of a new pattern of politics. The author traces its development by investigating the nature of political and social organization in Athens and the vocabulary of Greek politics. £4 *Princeton University Press*
