This fifth volume of this annual series, like the preceding volumes which appeared in 1981, 1982, 1983, and 1984, is respectively dedicated to the many professional Applied Linguists who were involved in helping to launch this publication, to those who helped formulate the framework for this and prior volumes, to those who have generously contributed to the series, and to all Applied Linguists and their students who, hopefully, will reap some benefit from its existence.
