Economic Development and Cultural Change

the leading American journal in its field

edited by Bert F. Hoselitz

is the main voice for

the viewpoint that the economic factors in development cannot be understood apart from the social, cultural, and political factors which affect the course of national development and in turn are affected by it.

offers multiple perspectives on

- innovation diffusion • manufacturing • agriculture • land use and reform
- peasantry • rural development • banking, credit, and debt •
- poverty • education and literacy • religion • family planning, fertility, and population • social structures • tradition and cultural values
- external trade • foreign aid • international migration • food policies
- health • theory and method

One year rates—Institutions \$35.00; Individuals \$22.00; Students (with faculty signature) \$18.00.

An influential forum for the discussion of those issues which concern international confrontation and peace

International Security focuses on new security problems as well as on traditional dimensions of international conflict. Trade, terrorism, supplies of strategic resources, in addition to military preparedness, are now central to a nation's security. *International Security* offers both theoretical and policy relevant analyses of these topics by scholars, industrials, scientists and military and government leaders.
