

## CORRIGENDUM

# Two new species of Poecilosclerida (Porifera: Demospongiae) from Terra Nova Bay (Antarctic Sea)—CORRIGENDUM

MARCO BERTOLINO, B. CALCINAI AND M. PANSINI

doi:10.1017/S0025315409000915, Published by Cambridge University Press, 9 July 2009.

Incorrect information on the entrustment of the type material to the Museo Civico di Storia Naturale ‘G. Doria’ (MSNG) was given in the Materials and Methods and Results sections of the publication listed above.

The type material was actually entrusted to the National Antarctic Museum (MNA) section of Genova and is included in its sponge collection under the following reference numbers:

*Crella (crella) aurantiaca* sp. nov.—holotype: [MNA 865].

*Mycale (Aegogopila) denticulata* sp. nov.—holotype: [MNA 888].

The authors apologise for the incorrect information.
