BEHAVIOURAL PUBLIC POLICY

Behavioural Public Policy (*BPP*) is an interdisciplinary and international peer-reviewed journal devoted to behavioural research and its relevance to public policy.

The study of human behaviour is important within many disciplinary specialties and in recent years the findings from this field have begun to be applied to policy concerns in a substantive and sustained way. *BPP* seeks to be multidisciplinary and therefore welcomes articles from economists, psychologists, philosophers, anthropologists, sociologists, political scientists, primatologists, evolutionary biologists, legal scholars and others, so long as their work relates the study of human behaviour directly to a policy concern.

BPP focuses on high-quality research which has international relevance and which is framed such that the arguments are accessible to a multidisciplinary audience of academics and policy makers.

BEHAVIOURAL PUBLIC POLICY

January 2021

CONTENTS

1 **Editorial Introduction: field experiments and public policy**
George Akerlof, Adam Oliver and Cass Sunstein

2 **How can experiments play a greater role in public policy? Twelve proposals from an economic model of scaling**
Omar Al-Ubaydli, Min Sok Lee, John A. List, Claire L. Mackevicius and Dana Suskind

50 **How can experiments play a greater role in public policy? Three notions from behavioral psychology**
Scott McConnell

60 **Scaling up experiments to reduce educational inequality**
Stephen W. Raudenbush

71 **Success at scale: six suggestions from implementation and policy sciences**
Teck-Hua Ho, Ching Leong and Catherine Yeung

80 **Successfully scaled solutions need not be homogenous**
Dilip Soman and Tanjim Hossain

90 **The realities of scaling within evidence-based policy**
Lauren H. Supplee and Maggie C. Kane

103 **Experimental evidence, scaling and public policy: a perspective from developing countries**
Anandi Mani

https://doi.org/10.1017/bpp.2020.63 Published online by Cambridge University Press

112 **Let's walk before we can run: the uncertain demand from policymakers for trials**
Peter John

117 **Field experiments and public policy: *festina lente***
Glenn W. Harrison

125 **A rejoinder: 'How can experiments play a greater role in public policy? Twelve proposals from an economic model of scaling'**
Omar Al-Ubaydli, Min Sok Lee, John A. List, Claire L. MacKevicius and Dana Suskind
