LIBRARY FOR DEAF EDUCATION.

IN connection with the Ellis Llwyd Jones Lectureship for Training Teachers of the Deaf, recently established at the University of Manchester through the benefaction of Sir James E. Jones, the Carnegie United Kingdom Trust has generously granted to the University the sum of £2,500 for the foundation and maintenance of a Library for Deaf Education. It is intended to make this Library as comprehensive as possible, and to include in it works dealing with the various systems of teaching the deaf—speech training, psychology of speech and hearing, phonetics, acoustics, anatomy, physiology, and diseases of the ear. The books are to be available to all individuals, societies and institutions throughout the United Kingdom interested or concerned in the education and training of the deaf, and they will be ready for consultation and borrowing immediately after Easter, 1920.

No charge, beyond the cost of carriage, is made for the loan of books, but intending borrowers are required to fill in a form of application to be obtained from "The Librarian, Library for Deaf Education, The University, Manchester."
