### THEATRE RESEARCH / RECHERCHES THEATRALES

The International Federation published the journal *Theatre Research/Recherches Théâtrales* from 1959 to 1975 when it was succeeded by *Theatre Research International*. During these years many important articles of original research were published covering the whole field of theatre history from the earliest times, and particularly Shakespeare and the Elizabethan period, to more recent figures such as Strindberg, Craig and Beckett. There have been special issues on the themes of Opera, the Playwright as Director, and Reinhardt; a check-list of world theatre on records; and reports on International Conferences and Symposia of the I.F.T.R.

In all 14 volumes were published in 36 issues including a complete index. Most back issues are still available.

University and institutional libraries, and especially those who have subscribed to the new journal *Theatre Research International*, are recommended to take this opportunity of completing their holding of the earlier issues of this publication, while copies last.
