

# General Notes

## LIONEL COLLEDGE MEMORIAL FELLOWSHIP

The next award or awards of the above Fellowship will be made for the year commencing July 1996. The maximum award to any one Fellow will be £3,000.

The following conditions are laid down by the Trust:

1. Applicants must be United Kingdom born Fellows of the Royal College of Surgeons of England aged between 25 and 35 years at the closing date for receipt of applications. They must be senior trainees, or recently appointed Consultants, or of similar status, in otolaryngology, rhinology or otology.
2. The subject of the award is head and neck surgery with an emphasis on laryngology, rhinology or otology.
3. The Fellowship is tenable for a period of study or research abroad.

Applications (6 copies please) for the award or awards must reach the Secretary of The Royal College of Surgeons of England, 35/43 Lincoln's Inn Fields, London WC2A 3PN not later than 26th April 1996 and must include the following:

- (a) Name, qualifications and brief curriculum vitae, including present appointment;
- (b) Proposals for the tour or visit to be made during the tenure of the Fellowship;
- (c) Letters of support from the applicant's present Consultant (or, if already a Consultant, the name of an independent referee in the United Kingdom) and the Head(s) of the Department(s) to be visited;
- (d) A statement of the expenses to be incurred and of available financial resources.

Short-listed applicants may be required to attend for interview in London, in which case necessary travelling expenses will be reimbursed.

R H E Duffett  
Secretary  
Royal College of Surgeons of England  
35/43 Lincoln's Inn Fields  
London WC2A 3PN

## JOURNAL OF LARYNGOLOGY AND OTOTOLOGY (JLO)

### TRAVELLING FELLOWSHIP

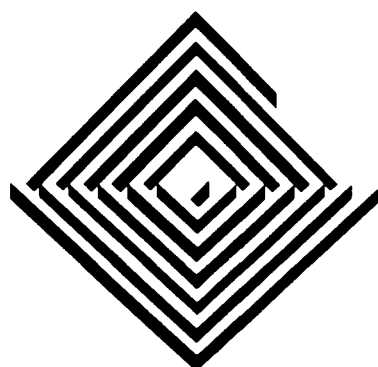

Applications are invited for the third *Journal of Laryngology and Otology (JLO)* Travelling Fellowship.

Applicants must have been Fellows of one of the Royal College of Surgeons for at least two years and hold an appointment as a Registrar or Senior Registrar recognized for Higher Surgical Training in the United Kingdom or the Republic of Ireland. They should preferably be subscribers to the *Journal of Laryngology and Otology*.

Applicants are asked to submit a current CV and write up to 1000 words describing where they wish to travel and which aspect of the speciality of otolaryngology they wish to study. It is anticipated that the Fellowship of £2500 will enable the holder to travel for a period of up to two months. A report of the Fellowship will be published in the Journal. Please submit applications to:

The Editor  
*Journal of Laryngology and Otology*  
2 West Road  
Guildford  
Surrey GU1 2AU

The closing date for applications will be Saturday 17th February 1996. It is anticipated that interviews will be held in London on Friday 1st March 1996.

## FIFTH INTERNATIONAL CONFERENCE ON CHOLESTEATOMA AND MASTOID SURGERY

September 1-6, 1996 Alghero - Hotel Baia Di Conte - Sardinia, Italy

### GENERAL SECRETARIAT

MARIO SANNA

Gruppo Otologico A.I.N.O.T.

### Previous Chairmen:

F. Brian McCabe USA  
Jacob Sadé Israel  
Mirko Tos Denmark  
Yuichi Nakano Japan

### ADVISORY COUNCIL

Aziz Belal Jr. *(Egypt)*  
Derald E. Brackmann *(USA)*  
Christian Deguine *(France)*  
Ugo Fisch *(Switzerland)*  
Michael E. Glasscock *(USA)*  
Jacques Magnan *(France)*  
Antonio Mazzoni *(Italy)*  
Hiroshi Moriyama *(Japan)*  
J. Gail Neely *(USA)*  
Michael M. Paparella *(USA)*  
Simon Parisier *(USA)*  
Naoaki Yanagihara *(Japan)*  
Carlo Zini *(Italy)*

### MAIN TOPICS

- Epidemiology
- Immunology
- Bone Resorption
- X-Ray Evaluation
- Congenital cholesteatoma
- Cholesteatoma in children
- Open vs closed technique
- Complications
- Petrous bone cholesteatoma

### For further information please contact:

#### SCIENTIFIC SECRETARIAT

A. TAIBAH, A. RUSSO  
F. MANCINI  
Gruppo Otologico/A.I.N.O.T.  
Via Emanuelli 42  
29100 Piacenza Italy  
Tel./Fax ++ 39-523-712396  
Tel. ++ 39-523-754362  
Fax ++ 39-523-453708

#### ORGANIZING SECRETARIAT

MEDICINA VIVA  
Servizio Congressi srl  
Viale dei Mille 140  
43100 Parma  
Tel. ++ 39-521-290191/290194  
Fax ++ 39-521-291314

#### PROGRAM:

- Free papers
- Special lectures
- Instructional courses
- Poster sessions
- Video sessions
- Panel discussions

**CALL FOR PAPERS**

## THE 7TH OXFORD COURSE IN ENT RADIOLOGY

**A two day course covering all aspects of modern imaging in  
Otolaryngology, highlighting the new techniques of CT and MRI**

**Dates: 17/18 May 1996**

**to be held at the Cotswold Lodge Hotel, Oxford**

The hotel is situated in a quiet conservation area just half a mile from the city centre.  
The price will be £295 which will include all refreshments, accommodation and the conference dinner  
on the Friday night.

*Write for application form and details to:*

Mrs S. Cook  
Academic Secretary  
Department of Otolaryngology  
The Radcliffe Infirmary  
Oxford OX2 6HE  
Telephone direct line: 0865 224544 (am only)

## EUROPEAN SOCIETY OF HEAD AND NECK RADIOLOGY

The European Society of Head and Neck Radiology was founded in Antwerp in 1987. Annual Meetings are held in a different European country in rotation with a joint meeting with the American Society of Head and Neck Radiology on alternating sides of the Atlantic every third year. The next meeting will be in Groningen in the Netherlands, 12–14 October 1995. The year after is the first meeting in England at Warwick University, Coventry, 1–4 September 1996.

Anyone wishing further information should contact  
Dr Peter D Phelps  
The Royal National Throat, Nose and Ear Hospital  
Gray's Inn Road  
London WC1X 8DA

## ARE YOU A SUBSCRIBER TO THE J.L.O.?

*TEN good reasons why you should:*

Each issue contains 40 per cent more material.

Main Articles, Case Reports and Short Communications from all over the world.

Quarterly Book Review Service.

Selected Abstract Service each month.

Period between acceptance and publication cut to six months or less.

Subscribers receive all supplements produced in that year.

Every 10 years, complete index issue published—included in the subscription (next issue will appear at the end of 2002).

Reduced subscription rates for those in training (Registrars/Residents/Interns).

Subscription normally tax deductible. (Those in training should submit a certificate from the Head of the Department giving details of their appointment; those who qualify must supply their *home* address for mailing direct.)

The J.L.O. has now been published for more than a century and remains excellent value for money—so why not have your own individual copy and give yourself everyday access!

## 29TH ANNUAL IOWA HEAD AND NECK CANCER AND RECONSTRUCTIVE SURGERY COURSE

TUESDAY, 18 JUNE – SATURDAY 22 JUNE 1996

*Course Director:* Henry T. Hoffman, MD

*Assistant Course Directors:* Gerry F. Funk, MD; Scott M. Graham, MD; Timothy M. McCulloch, MD

This 5-day course, designed for both residents and practicing head and neck surgeons, provides a comprehensive review of current techniques in the management and reconstruction of head and neck neoplasms.

- Areas covered include treatment of salivary gland, oral cavity, oropharyngeal, laryngeal, paranasal sinus, and thyroid carcinomas.
- Cadaver dissection under the supervision of the faculty includes practical application of local, myocutaneous and free flaps.

**Bone Plating Workshop included – Guest lecturer: Jeffrey R. Haller, MD, Salt Lake City, Utah.**

*Guest faculty:* James L. Netterville, MD, Nashville, Tennessee

K. Thomas Robbins, MD, Memphis, Tennessee

Gordon B. Snow, MD, Amsterdam, The Netherlands

Randal S. Weber, MD, Houston, Texas

Gayle E. Woodson, MD, Memphis, Tennessee

Fee: \$1,350\*      ●      40 hours CME credit      ●      Enrollment limited to 60 participants

\* \$800 for residents with a letter from department head

## IOWA HEAD AND NECK LASER COURSE

MONDAY 17 JUNE 1996

*Course Director:* Nancy M. Bauman, MD, Iowa City, Iowa

*Course Assistants:* Jay T. Rubinstein, MD; Robert E. Johnson, MD; Leila A. Mankarious, MD;  
Mark R. Gacek, MD

This one-day course includes lectures and laboratory sessions addressing laser physics, safety and clinical applications in all areas of the head and neck.

- A canine laboratory and temporal bone laboratory provide 'hands-on' experience for laser management of oral cavity, oropharyngeal, laryngeal, tracheal and otologic pathology with CO<sub>2</sub>, Nd-YAG, Argon and KTP lasers.
- A certificate of achievement is provided following successful completion of the course.

*Guest Faculty:* Joseph Valentino, MD, Lexington, Kentucky

Fee: \$700.00\*      ●      9 hours CME credit      ●      Enrollment limited to 40 participants

\* \$350 for residents with a letter from department head

*For further information regarding these courses, contact*

Denise Watkins, Department of Otolaryngology, University of Iowa Hospitals and Clinics, Iowa City,  
Iowa 52242 • 319-356-2166 • FAX 319-356-4547

## SUBJECT INDEX

- Abscess**  
cervical, 886
- Acetone**  
superglue removal from ear canal, 1219
- Acidosis**  
renal tubular, in association with hearing loss, 930
- Acoustic impedance tests**  
adenoids in school-aged children, 196
- Acoustic neuroma**—*see* Vestibular Schwannoma
- Acoustic rhinometry**  
control of height and angle, 536  
*versus* rhinohyrometry, 503
- Acquired immunodeficiency syndrome**  
epiglottitis treated with oral fluconazole, 337  
mycobacterium marches back, 5  
Sjögren-like syndrome, 1113
- Actinomycosis**  
of vallecula, 154
- Adenocarcinoma**  
metastasis, 759  
salivary gland, metastases, 1222  
terminal duct, parotid gland, 466
- Adenoids**  
in school-aged children, 196
- Adenotonsillectomy**  
tension pneumoperitoneum, 440
- Adolescence**  
of school age, adenoids, 196
- Agnosia**  
focal EEG abnormality, 431
- Airway obstruction**  
cause, unexpected, 252  
intraoperative herniation of a tracheostomy tube cuff, 159  
neonatal upper airway obstruction caused by chlamydial rhinitis, 58  
ruptured aneurysmal arterio-venous fistula, 562  
with stridor due to nasal secretions, 331  
thyroid goitre, 892
- Airway pressure**  
comparison of methods, 414
- Alpha-amylase**  
tracheobronchial secretions in tracheostomies, 640
- Amylase activity**  
laryngectomees, 637
- Analgesia**  
post-tonsillectomy pain, 963
- Aneurysm**  
carotid artery, epistaxis and otalgia, 865  
leaking aortic aneurysm presenting as a recurrent neck swelling, 163  
pseudoaneurysm of carotid artery, 889
- Angiolymphoid hyperplasia**  
with eosinophilia, 262
- Antibiotics**  
effect of long-term therapy upon ciliary beat frequency in chronic rhinosinusitis, 24
- Antrochonal polyp**  
treatment with intranasal steroids, 553
- Apnoea**  
evaluation after uvulopalatopharyngoplasty, 308
- Arthritis, rheumatoid**  
inner ear involvement, 713
- Atlanto-axial joint**  
otolaryngological diseases and procedures, 1005
- Audiometry**  
behavioural observation, 605  
brain stem evoked response, 605  
head and neck neoplasms, 744
- Aural polyps**  
mast cells, 491
- Autoantibodies**  
localization and specificity of guinea pig inner ear antigenic epitopes, 19
- Balance disorders**  
sway weigh balance platform, 836
- Balloon dilatation**  
laryngostenosis, 876
- Biocompatible materials**  
subcutaneous tissue reaction to synthetic auditory ossicle (Apaceam) in rats, 14
- Biopsy, needle**  
submandibular gland, 853
- Birmingham Mummy**, 273
- Bismuth subgallate**  
role in tonsillectomy, 203
- Bone regeneration**  
attic cholesteatoma, 703
- Bosnia**  
penetrating laryngeal injury: two case reports, 144
- Brachiocephalic trunk**  
successful management of tracheo-innominate artery fistula using interposition of a thymus pedicle flap, 161
- Brachytherapy**  
salvage brachytherapy and salvage surgery for recurrent oropharyngeal carcinoma following radiotherapy, 45
- Brain stem**  
expression activated by tactile stimulation on the laryngeal vestibulum in the cat, 39
- Branchial apparatus**  
branchial fistula, 999
- Branchioma**  
of the nasopharynx, resection via the endonasal approach, 139
- British Association for Paediatric Otorhinolaryngology (BAPO)**  
abstracts, 572
- British Skull Base Society**  
abstracts 18–19 May, 1995, 791
- Bronchoalveolar lavage fluid**  
respiratory tract infections, 859
- Bronchoscopy**  
radiological investigations, pre-endoscopic assessment of children with stridor, 844
- Brow incision**  
modification for access to anterior skull base and paranasal sinuses, 134
- Carcinoma**  
adenoid cystic, excision via anterior castellated approach, 774  
ameloblastic, 1019  
ex-pleomorphic adenoma of nasal cavity, 677  
medullary thyroid, metastasis to temporal bone, 1200  
papillary  
occult, 1109  
thyroglossal cyst, 1124  
salvage brachytherapy and salvage surgery for recurrent oropharyngeal carcinoma following radiotherapy, 45  
squamous cell carcinoma  
amplification of the Int-2 gene, head and neck neoplasms, 72  
CO<sub>2</sub>-laser therapy, larynx, 111  
diet-modified sex hormone metabolism, 873  
non-irradiated, non-smoking patient, 762  
post radiation primary intranodal leiomyosarcoma, 80  
posterior pharyngeal wall, characteristics compared with the lateral wall, 120

- recurrence analysis, 1063
- sebaceous differentiation, 784
- thyroglossal duct cyst, 1001
- treatment of node negative squamous cell carcinoma, postcricoid region, 114
- unusual presentation, pyriform fossa as a pedunculated polypoidal mass - a case report, 157
- Carotid arteries**
  - aneurysm, epistaxis, 650
  - internal, aneurysm, epistaxis and otalgia, 865
  - surgical flaps, 1176
- Cat**
  - expression activated by tactile stimulation on the laryngeal vestibulum in lower brain stem, 39
- Catheterization**
  - central venous, and vocal fold paralysis, 1107
- Cell count**
  - subcutaneous tissue reaction to synthetic auditory ossicle (Apaceram) in rats, 14
- Cellulitis**
  - computed tomographic findings, 449
- Cerebellar artery**
  - aneurysm, 429
- Cerebellopontine angle tumour**
  - posterior-inferior cerebellar artery aneurysm, 429
- Ceruminoma**, 180
- Chemotherapy**
  - head and neck neoplasms, 744
- Child**
  - of school age, adenoids, 196
- Chlamydia trachomatis**
  - cause of upper airway obstruction, 58
- Choanal atresia**
  - endoscopic fenestration, 31
- Cholesteatoma**
  - middle ear and mastoid, combined approach tympanoplasty failure, 710
  - osteoplastic changes, 703
  - recurrence factors, 590
- Chondropathy, inherited degenerative**
  - autosomal dominant new clinical entity, 433
- Chondroradionecrosis**
  - diagnostic dilemma, 218
- Chondrosarcoma**
  - of the larynx, 168
- Chronic sinusitis**
  - scanning electron microscopy findings, 509
- Cilia**
  - effect of long-term antibiotic therapy upon ciliary beat frequency in chronic rhinosinusitis, 24
- Cisplatin**
  - children, hearing loss, 926
- Clinical photographs**
  - teaching aids, 741
- Cochlea**
  - localization and specificity of guinea pig inner ear antigenic epitopes, 19
- Cochlear implants**
  - delayed extrusion: a case report of an implant extruding 21 months after the original operation, 56
  - failure, 542
  - new incision, 821
  - preventative procedure of extrusion, 425
  - reimplantation, 980
- Computed tomography**
  - computerized axial, Charing Cross protocol, endoscopic sinus surgery, 1057
  - diagnosis of inflammatory sinonasal disease, 27
  - facial paralysis, 935
  - facial paralysis due to tuberculosis, 1010
  - osteoplastic changes, 703
  - peritonsillar abscess and cellulitis, 449
- Cricoid cartilage**
  - anterior cervical pain syndromes, treatment with triamcinolone acetate, 49
  - giant cell reparative granuloma, 1120
- Cryosurgery**
  - treatment of nasal obstruction, 729
- Cysts**
  - oncocytic cysts, of larynx, 1226
  - polycystic disease of salivary glands, 165
  - saccular, of the larynx, 653
- Cytology**
  - efficacy of fine needle aspiration in diagnosis of tuberculosis of the thyroid gland: a study of 18 cases, 36
  - fine-needle aspiration, submandibular gland neoplasms, 853
- Cytomegaloviruses**
  - AIDS, 1113
- Day-case procedure**
  - KTP-532 laser tonsillectomy, 515
- Diathermy**
  - bipolar, complications, 733
  - post-operative morbidity in electrodissection tonsillectomy, 209
- Dizziness**
  - measurement of body sway in normal subjects and patients with dizziness, 189
- Dysphagia**
  - multidisciplinary management, 419
- Dysphonia**
  - gastro-oesophageal reflux, 1195
- Ear, external**
  - somatic sensory supply, communicating branches, 1141
- Ear canal**
  - irrigation, tympanic membrane rupture, 1036
  - non-Hodgkin's lymphoma, in HIV-positive patient, 751
  - superglue removal, 1219
- Ear canal neoplasms**
  - 'ceruminoma', 180

# Instructions to Authors

**Review Articles.** Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognized authority on the topic and have carried out work of their own in the relevant field.

**Historical Articles.** Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

**Letters to the Editor.** This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers', such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

**Pathology.** Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bimonthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities. It may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

**Radiology.** Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bimonthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasize a problem of unusual clinical interest.

**Short Communications.** This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example, a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

**'Silence in Court'.** Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

## Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.  
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and last pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 01483 451874.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.

# The Journal of Laryngology and Otology

Vol 109

December 1995

<b>Editorial</b>	1139
<b>Review Article</b>	
The clinical significance of the communicating branches of the somatic sensory supply of the middle and external ear: <i>P. Grey</i>	1141
<b>Main Articles</b>	
Comparison of the proteins of middle ear effusion with human mast cell proteins: <i>Y. Rakover, A. Shneyour, G. Rosen, Y. Lensky</i>	1146
Long-term ventilation of the middle ear using a tympanotomy technique: <i>D. P. Martin-Hirsch, C. J. Woodhead, C. E. Vize</i>	1151
Tympanic neurectomy in the management of parotid sialiectasis: <i>A. S. Daud, A. L. Pahor</i>	1155
Antimicrobial management of chronic sinusitis in children: <i>I. Brook, P. Yocum</i>	1159
Sleep nasendoscopy: what benefit to the management of snorers?: <i>A. E. Camilleri, L. Ramamurthy, P. H. Jones</i>	1163
Would day-case adult tonsillectomy be safe?: <i>S. J. Moralee, J. A. M. Murray</i>	1166
Pharyngeal trauma in children – accidental and otherwise: <i>P. M. J. Tostevin, L. J. Hollis, C. M. Bailey</i>	1168
Management of carotid artery exposure with pectoralis major myofascial flap transfer and split thickness skin coverage: <i>C. R. Leemans, A. J. M. Balm, R. T. Gregor, F. J. M. Hilgers</i>	1176
Measurement of small tissue volumes using Holden's apparatus: <i>J. D. T. Mason, S. S. Hehar, M. Holden, N. S. Jones</i>	1181
<b>Short Communication</b>	
How we do it: use of a venous cannulation needle for endoscopic teflon injection to the vocal folds: <i>D. Strachan, B. Kamath, C. Wengraf</i>	1184
<b>Clinical Records</b>	
Unilateral hearing loss due to a rhabdomyoma in a six-year-old child: <i>J. P. P. M. van Leeuwen, M. Pruszczynski, H. A. M. Marres, J. A. Grotenhuis, C. W. R. J. Cremers</i>	1186
Leiomyomatous hamartoma of the posterior tongue: a case report: <i>P. Goldsmith, J. V. Soames, D. Meikle</i>	1190
Endobronchial tuberculosis masquerading as foreign body aspiration: <i>G. M. Weiner, A. J. G. Batch</i>	1192
Dysphonia as an atypical presentation of gastro-oesophageal reflux: <i>G. M. Weiner, A. J. G. Batch, K. Radford</i>	1195
Stridor in patients with HIV infection: <i>R. B. S. Laing, P. J. C. Wardrop, P. D. Welsby, R. P. Brettle</i>	1197
Medullary carcinoma of the thyroid metastatic to the temporal bone: <i>M. I. Redleaf, N. M. Bauman, R. A. Robinson, B. J. Gantz</i>	1200
Occult thyroid carcinoma presenting as a parapharyngeal mass: <i>F. Ferrario, R. Roselli, A. Macchi</i>	1204
Synovial sarcoma of the pharynx: <i>L. Ramamurthy, W. Y. Nassar, P. S. Hasleton, H. R. Gattamaneni, C. I. Orton</i>	1207
A tumour derived from Ebner's glands: microcystic adnexal carcinoma of the tongue: <i>J. H. Schipper, B. U. Holecek, K. W. Sievers</i>	1211
Pharyngo-oesophageal fistula following iatrogenic perforation of a pharyngeal pouch: <i>D. P. Martin-Hirsch, F. J. Lannigan</i>	1215
The clunking neck: <i>Z. G. G. Makura, A. Nigam</i>	1217
Removal of superglue from the external ear using acetone: case report and literature review: <i>W. F. Abadir, V. Nakhla, P. Chong</i>	1219
<b>Pathology in Focus</b>	
Orbital and skin metastases in a polymorphous low grade adenocarcinoma of salivary gland: <i>K. M. Thomas, V. L. Cumberworth, J. McEwan</i>	1222
Multiple oncocytic cysts of the larynx: <i>J. K. Dhingra, N. M. Aqel, J. McEwen, N. R. Bleach</i>	1226
<b>Abstract Selection</b>	1229
<b>Letters to the Editor</b>	1234
<b>General Notes</b>	1236
<b>Index</b>	1240
