# LOGIC, SEMANTICS, METAMATHEMATICS

PAPERS FROM 1923 TO 1938

ALFRED TARSKI

TRANSLATED BY J. H. WOODGER

This book is a collection of Alfred Tarski's main pre-war contributions to mathematical logic and metamathematics. They were originally published in French, German and Polish, and now appear for the first time in English. Included among them is Tarski's celebrated monograph on the concept of truth in formalized languages. The articles have all been revised by the author, and bibliographical references have been added throughout. 60s. net

## TIME AND MODALITY

*Being the John Locke Lectures for 1955-6 delivered in the University of Oxford*

A. N. PRIOR

This is an attempt to evolve symbolic calculi in which tense-distinctions are taken seriously as an element of logical form. Detailed comparisons are made with familiar modal calculi, and an entirely new modal system is constructed to meet the problem of securing individual reference and quantifiability in modal and temporal contexts without making questionable metaphysical assumptions. 25s. net 24 JANUARY

By the same author: FORMAL LOGIC, 35s. net

LOGIC AND THE BASIS OF ETHICS, 12s. 6d. net

## PHILOSOPHICAL ANALYSIS

ITS DEVELOPMENT BETWEEN THE TWO WORLD WARS

J. O. URMSON

'This brilliantly lucid account of the philosophical movements Logical Atomism and Logical Positivism in the period indicated deserves a great welcome even beyond the central philosophical public. . . . A brief and well-chosen bibliography puts the reader on the track of the most influential articles and larger works.' BLACKFRIARS 18s. net

## JOHN LOCKE AND THE WAY OF IDEAS

JOHN W. YOLTON

OXFORD CLASSICAL AND PHILOSOPHICAL MONOGRAPHS

The author examines the epistemological and metaphysical doctrines of Locke's *Essay Concerning Human Understanding* against the background of the religious and moral controversies waged in the pamphlets and tracts of the seventeenth and early eighteenth centuries. Extensive use has been made of the manuscript materials of the Lovelace Collection. 30s. net
