

## ERRATUM

# Arrested growth of *Trypanosoma cruzi* by the calpain inhibitor MDL28170 and detection of calpain homologues in epimastigote forms – ERRATUM

SANGENITO, L. S., ENNES-VIDAL, V., MARINHO, F. A., DA MOTA, F. F., SANTOS, A. L. S., D'AVILA-LEVY, C. M. and BRANQUINHA, M. H.

doi: 10.1017/S0031182009005629, Published by Cambridge University Press

First published online 2 March 2009

The authors request to make the following changes:

*SUMMARY* – line 10 should read ..., like Y strain (lineage TcII), Dm28c (lineage TcI) ...

#### *MATERIALS AND METHODS*

*Parasites and cultivation* – line 1 should read ... Dm28c (lineage TcI), Y (lineage TcII) ...

*RESULTS* – line 23 should read ... TcII (Y strain), TcI (Dm28c) ...

*Fig. 4. legend* – line 4 should read ... lineage TcII (Y strain), lineage TcI (Dm28c) ...
