Invasive Plant Science and Management

Published quarterly by the Weed Science Society of America

Antonio DiTommaso, *Editor*

The Weed Science Society of America (WSSA) publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports.

Associate Editors (Assignment Year)

Edith B. Allen, Botany & Plant Sciences Department, University of California, Riverside, CA 92521 (2008)
Jacob N. Barney, School of Plant and Environmental Sciences, Virginia Tech, Blacksburg, VA 24061 (2012)
John Cardina, Department of Horticulture & Crop Science, Ohio State University, Wooster, OH 44691 (2008)
Stephen F. Enloe, Center for Aquatic and Invasive Plants, University of Florida, Gainesville, FL 32653 (2010)
Songlin Fei, Department of Forestry and Natural Resources, Purdue University, West Lafayette, IN 47907 (2015)
Guillaume Fried, Plant Health Laboratory, Anses, 34988 Montferrier-sur-Lez, France (2017)
Catherine S. Jarnevich, US Geological Survey, Fort Collins, CO 80526 (2015)
Marie Jasieniuk, University of California, Davis CA 95616 (2017)
Darren J. Kriticos, CSIRO, Canberra, ACT 2601, Australia (2010)
James K. Leary, Center for Aquatic and Invasive Plants, University of Florida, Gainesville, FL, 32653 (2014)
Kelly G. Lyons, Department of Biology, Trinity University, San Antonio, TX 78212 (2008)
Rob J. Richardson, Department of Crop Science, North Carolina State University, Raleigh, NC 27695 (2014)
Steve S. Seefeldt, NWREC, Washington State University, Mount Vernon, WA 98273 (2014)
Ryan M. Wersal, Minnesota State University, Mankato, Mankato, MN 56001 (2014)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

Invasive Plant Science and Management (ISSN 1939-7291) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It is published quarterly, one volume per year, four issues per year beginning in March.

Membership includes receipt of *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Invasive Plant Science and Management* subscription page at <https://www.cambridge.org/core/journals/invasive-plant-science-and-management/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Invasive Plant Science and Management publishes four times a year in March, June, September, and December. Annual institutional electronic subscription rates: US \$398.00; UK £277.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ipsm>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Invasive Plant Science and Management* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

INVASIVE PLANT SCIENCE AND MANAGEMENT

Table of Contents

Commentary

- Framing the concept of invasive species “impact” within a management context
Jacob N. Barney and Daniel R. Tekiela 37

Review

- Invasive grasses in South Texas rangelands: historical perspectives and future directions
Justin P. Wied, Humberto L. Perotto-Baldivieso, April A. T. Conkey, Leonard A. Brennan
and José M. Mata 41

Research Articles

- Genetic diversity and differentiation in populations of invasive Eurasian (*Myriophyllum
spicatum*) and hybrid (*Myriophyllum spicatum* × *Myriophyllum sibiricum*) watermilfoil.
Ryan A. Thum, Gregory M. Chorak, Raymond M. Newman, Jasmine A. Eltawely,
Jo Latimore, Erick Elgin and Syndell Parks 59

- Genetic comparison of introduced and native populations of common buckthorn (*Rhamnus
cathartica*), a woody shrub introduced into North America from Europe. Alexis Wafer,
Theresa M. Culley, Kala Stephens and J. Ryan Stewart 68

- Allometric equations for the invasive vine air potato (*Dioscorea bulbifera*) in its exotic
range in Florida. Min B. Rayamajhi, Eric Rohrig, Philip W. Tipping, Paul D. Pratt and
Jorge G. Leidi 76

- Hot water and cutting for control of *Impatiens glandulifera*. Benedikte W. Oliver,
Therese W. Berge, Knut A. Solhaug and Inger S. Fløistad 84

- Assessment of invasive *Gypsophila paniculata* control methods in the northwest
Michigan dunes. Emma K. Rice, Hailee Leimbach-Maus, Charlyn Partridge and
James N. McNair 94

- Brazilian peppertree and mangrove species response to foliar-applied novel auxin-type
herbicides. Stephen F. Enloe, James K. Leary, Candice M. Prince, Benjamin P. Sperry
and Dwight K. Lauer 102

Note

- Developing minimal-input techniques for invasive plant management: perimeter treatments
enlarge native grass patches. Scott R. Abella, Lindsay P. Chiquoine, Jeremy M. Moss,
Eric D. Lassance and Charles D. Schelz 108
