

Calendar

Edited by Paul Webster
pwebster@usc.edu

List your meeting here:

Following is a list of microscopy related meetings and courses. The editors would greatly appreciate input to this list via the electronic submission form under "events/other microscopy events" at the MSA webpage: www.microscopy.org. We will gladly add hypertext links to the notice on the web and insert a listing of the meeting in the next issue. Please furnish the following information (any additional information provided will be edited as required and printed on a space available basis):

- Meeting/Course name
- Meeting/Course dates
- Meeting/Course topic or short description
- Sponsoring society/organization/university
- Contact person
- Telephone number
- Fax number
- Email address
- URL for website

CAMBRIDGE

New to the **Advances in Microscopy and Microanalysis** book series!

Scanning Electron Microscopy for the Life Sciences

Heide Schatten

University of Missouri, Columbia

US\$120.00: Hb: 978-0-521-19599-7: 312 pp

Recent developments in scanning electron microscopy (SEM) have resulted in a wealth of new applications for cell and molecular biology, as well as related biological disciplines. It is now possible to analyze macromolecular complexes within their three-dimensional cellular microenvironment in near native states at high resolution, and to identify specific molecules and their structural and molecular interactions. New approaches include cryo-SEM applications and environmental SEM (ESEM), staining techniques and processing applications combining embedding and resin-extraction for imaging with high resolution SEM, and advances in immuno-labeling. With chapters written by experts, this guide gives an overview of SEM and sample processing for SEM, and highlights several advances in cell and molecular biology that greatly benefited from using conventional, cryo, immuno, and high-resolution SEM.

About the series

The Press currently publishes the Microscopy and Microanalysis (MAM) journal in conjunction with the MSA, which reaches 4,000 microscopists and is affiliated with 12 international microscopy societies. The series would be a natural development from this journal, and will take a broad view of the discipline, covering topics from instrumentation to imaging, methodology and analysis across physical science, materials science, biology and medicine. Books commissioned for the series will range from advanced undergraduate textbooks through to research and practitioner oriented monographs for researchers. The series aims to produce a coherent source of material, encouraging the communication and exchange of ideas across these divergent fields, ensuring that the series appeals to a broad community in the physical and life sciences.

Forthcoming titles in this series:

Microscopic Nanocharacterization of Materials

by Michael Isaacson

Energy Filtered Electron Microscopy and Electron Spectroscopy

by Richard Leapman

Dynamic Transmission Electron Microscopy

by Nigel Browning, Thomas LaGrange, Bryan Reed, Henning Stahlberg, Bradley Siwick

CAMBRIDGE UNIVERSITY PRESS

MICROANALYSIS SOCIETY TOPICAL CONFERENCE - EPMA 2016

Early Career Scholar financial support available

Electron-probe Microanalysis (EPMA)

May 16-19, 2016 | University of Wisconsin, Madison

SCIENTIFIC PROGRAM

Tutorials • Quantitative WDS and EDS microanalysis • FE-EPMA and SEM • Microanalysis standards • Compositional mapping • Quality control • Practical microanalysis • Advances in detector hardware • Microanalysis applications • CL and Soft X-ray spectroscopy • Early Career Scholar platform and poster presentations • Sponsor technical presentations

GROUP SESSIONS

User group meetings • Problem solving • Laboratory demonstrations • Help from the experts • Software tools

SCIENTIFIC AND SOCIAL EVENTS

Group meals and banquet • Poster sessions • Networking opportunities

Improve your microanalysis skills, meet new people, and learn from the experts

www.microbeamanalysis.org

MICROANALYSIS SOCIETY TOPICAL CONFERENCE - EBSD 2016

Electron Backscatter Diffraction (EBSD)

MAY 24-26, 2016

University of Alabama, Tuscaloosa, AL USA

Registration Opens: November 1, 2015

Abstract Submission: 12/1/15 - 3/1/16

May 24 • EBSD Tutorials

Diffraction physics • Software • Experimental set-up • Data acquisition • Analysis • Sample preparation • Case studies • Hands-on demos with latest EBSD systems

May 25-26 • Technical Symposia

Platform & poster presentations • EBSD development and application in materials science and geological sciences

\$200 for professionals (\$240 for non-MAS members)

\$80 for students (\$90 for non-MAS members)

http://www.microbeamanalysis.org/topical-conferences/ebsd-2016/welcome

4th Conference on Advanced Nanoparticle Generation and Excitation by Lasers in Liquids (ANGEL)

May 9–12, 2016
Essen, Germany
<http://angel-conference.org>

Bacteriology Congress 2016

May 16–18, 2016
San Antonio, TX
<http://bacteriology.omicsgroup.com>

EPMA 2016: Electron Probe Microanalysis Topical Conference

May 16–19, 2016
Madison, WI
www.microbeamanalysis.org/topical-conferences/epma-2016-1/epma-2016

EPMA 2016 Topical Conference Electron-probe Microanalysis

May 17–19, 2016
Madison, WI
