

**JOURNAL OF THE
ROYAL STATISTICAL SOCIETY
SERIES B – METHODOLOGICAL**

Vol. 35, No. 3

1973

Combining possibly related estimation problems (with Discussion) *B. Efron and C. Morris*

Multisample tests for multimodal and axial circular populations *K. V. Mardia and B. D. Spurr*

Mean-value formulae for a class of random sets *F. Streit*

Bayesian and classical analysis of Poisson regression *G. M. El-Sayyad*

A test of fit for bivariate distributions *R. C. Dahiya and J. Gurland*

Symmetric – simplex block designs for mixtures *S. K. Saxena and A. K. Nigam*

Testing transformations to normality *A. C. Atkinson*

Some monotonicity theorems for chi-squared, *F* and *t* distributions with applications *B. K. Ghosh*

Minimax designs for Fourier series and spherical harmonics regressions: a characterization of rotatable arrangements *L. L. Kupper*

On the first emptiness of dams with Markovian inputs *D. N. Shanbhag*

Some exact tests for normality in the presence of unknown parameters *M. Csorgo, V. Seshadri and M. Yalovsky*

Comments and Queries

On two modifications of the Cramér – Von Mises statistic *E. H. Lehman*

Issued three times per year. Annual subscription £6 (U.S. \$15.00)

All enquiries should be addressed to:

The Secretary, Royal Statistical Society, 21 Bentinck Street, London W1M 6AR, U.K.
