

A TEXTBOOK OF GENERAL PATHOLOGY

For the Use of Students and Practitioners of Medicine. By JAMES M. BEATTIE, M.A., M.D., Edin., Professor of Pathology and Bacteriology, University of Sheffield; Honorary Pathologist to the Sheffield Royal Infirmary and Sheffield Royal Hospital, Examiner in the Universities of Edinburgh and Liverpool, etc.; and W. E. CARNEGIE DICKSON, B.Sc., M.D., M.R.C.P. Edin., Lecturer in Pathological Bacteriology, and Senior Assistant to the Professor of Pathology, University of Edinburgh; Assistant Pathologist, Royal Infirmary, Edinburgh. Just Published. Demy 8vo, 500 pages, with 20 beautifully executed Coloured Figures on four Plates and 162 half-tone Illustrations. Cloth. Price 17s. 6d. net.

To be followed early in February by a *Textbook of Special Pathology*, by the same Authors, and at the same price.

These works are based upon the teaching of the Pathological School of the University of Edinburgh, with which Prof. GREENFIELD has so long been associated. The Illustrations in both books are from photographs and photomicrographs, which have been made, most of them, from specimens specially prepared and selected. That the preparation of the microscopical sections and the general artistic work has been in the hands of Mr RICHARD MUIR, Demonstrator in Pathological Technique in the University of Edinburgh, is sufficient guarantee of the accuracy and excellence of the coloured illustrations, photographs, and drawings. The most modern staining methods have been employed, and only the best and most typical preparations have been selected for the illustrations.

Manual of Bacteriology. By HUBERT U. WILLIAMS, M.D., Professor in the University of Buffalo. Revised by B.
