Judicial review constitutes an important aspect of any legal system operating under the rule of law. ## The Antitrust Revolution in Europe

Exploring the European Commission's Cartel Policy

Lee McGowan, Queen's University Belfast, UK

*'Lee McGowan's authoritative book is a very welcome addition to the literature on developments in European antitrust. It focuses primarily on EU supranational cartel policy, providing a fascinating, critical account of why policy developed as it has and of its effectiveness in detecting, punishing and deterring cartelists to the present. With its emphasis on institutional structures and decision making processes and its use of examples, the book will be an invaluable reference for political scientists and should also attract a wide readership among economists and lawyers.'*

## European Foreign Policy

Legal and Political Perspectives

Edited by Panos Koutrakos, University of Bristol, UK

*'Like early mariners, politicians and officials trying to navigate European foreign policy find themselves in an environment of unpredictable hazards – hidden institutional shoals, and legal reefs that can tear the bottom out of a policy. This insightful collection of contrasted studies shines the twin beams of political science and legal analysis into these opaque depths. Practitioners as well as scholars will benefit from the illumination.'*

– Nick Witney, European Council on Foreign Relations and Former Chief Executive of the European Defence Agency, UK

## Making European Private Law

Governance Design

Edited by Fabrizio Cafaggi, European University Institute, Italy and Horatia Muir Watt, l'Ecole de droit de Sciences Po (Sciences Po Law School), France

And how do we shape the institutional design of the governance model(s) that comprise "Europe"? A stellar collection of contributors provides important fresh insights into the evolving and varied patterns according to which private law is generated in Europe.'*
