¹ Modern standard of this laboratory is slightly older than others (= 94% of NBS oxalic-acid standard), making all dates as published slightly, but not significantly, too young.

² Dates published in Louvain I (ref. 84), for reasons given there, were calculated from a half life of 5760 yr. Corrected dates as given in Column 4 (and as published in Louvain II, ref. 132) are noted c, as if they were "mistakes" in computation.
