## 2011 IPA Junior Research Awards

Submissions are due 15 April 2011

Presented every two years at the IPA Congress, the *Junior Research Awards in Psychogeriatrics* were established in 1989 to recognize the best original, previously unpublished research in the field of Psychogeriatrics by junior researchers and encourage them to continue their groundbreaking work and participate in the field and IPA. Past award recipients include many scientists who have demonstrated outstanding leadership in the field.

The recipients will present their award-winning research:

- Session at the IPA 2011 Congress, 6-9 September 2011 in The Hague, The Netherlands
- Papers will be published in *International Psychogeriatrics*, IPA's Journal

*In addition, each award recipient will receive:*

- Complimentary 2011 IPA Congress registration
- US \$1,500 toward travel and accommodations for the Congress
- Complimentary one-year membership in IPA

For more information, visit IPA's website, <http://www.ipa-online.org>.

## ***IPA Neuroimaging in Dementia***

***Attend this popular IPA workshop and  
never leave your office!***

Starting soon, IPA is planning to offer this program online. Presented by the same outstanding international experts, providing information on the latest advances in neuroimaging with real life examples and using an interactive teaching style, the webinars are destined to be as successful as the original workshop which has been offered many times and always receiving excellent evaluations!

***Newly Revised!***

## ***The IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)***

BPSD are recognizable, understandable and treatable. Appropriate management strategies of BPSD are important factors in improving our care of dementia patients and their caregivers.

Developed in 1998, updated in 2002 and recently revised, the International Psychogeriatric Association (IPA) offers this popular comprehensive resource with modules that provide a useful overview of the presentation and causes of BPSD, giving constructive guidance on treatment interventions, both pharmacological and non-pharmacological, coupled with information on caregiver education and support.

Modules:

- |                               |   |
|-------------------------------|---|
| 1 - An introduction to BPSD   | 5 - Non-pharmacological treatments                  |
| 2 - Clinical issues           | 6 - Pharmacological treatments                      |
| 3 - Etiology                  | 7 - Cross-cultural and transnational considerations |
| 4 - Role of family caregivers |   |

... *PLUS* guides specifically designed for nurses and primary care physicians are also available!

***Available online at no charge to IPA members!

## *Encourage a Colleague to Join*

**The International Psychogeriatric Association (IPA)** is the leading multi-disciplinary, international organization dedicated to the advancement of geriatric mental health knowledge.

### **Benefits of IPA Membership Include**

- An opportunity to **interact with colleagues** around the world who share an interest in advancing research, education, and theory about mental health in older people
- **Education and meetings** reflecting the many disciplines in Psychogeriatrics and the collective expertise of the world; IPA members receive special “members only” rates for all our meetings and activities
- A subscription to ***International Psychogeriatrics***, IPA’s peer-reviewed journal, which includes eight issues per year and any additional special-focus supplements
- The ***IPA Bulletin***, an informative quarterly newsletter
- **IPA Online** – the IPA website – including member area with special features including access to fellow members, and the IPA Learning Portal
- Support the **growth of Psychogeriatrics around the world**, including contributing to the Sponsored Member Program to help associations in developing countries pass knowledge to their members
- **Behavioral and Psychological Symptoms of Dementia (BPSD) Education Materials** are available to IPA members in electronic format at no charge. The BPSD materials include the *newly revised* seven module *IPA Complete Guide to BPSD*, the *Primary Care Physician’s Guide to BPSD*, and the *Nurses’ Guide to BPSD*.

IPA’s membership dues have been adjusted to accommodate the needs of a wide variety of colleagues worldwide. To find out what the membership rates are for your country, please visit [www.ipa-online.org](http://www.ipa-online.org).

*To join or to obtain a membership application, bookmark the IPA website at <http://www.ipa-online.org>, or contact:*

## Cambridge Neuropsychopharmacology Programme

23–25 June 2011, Madingley Hall, Cambridge

In June 2011, the University of Cambridge Institute of Continuing Education (ICE) will host an extraordinary event. For three days, some of the world's finest psychiatrists, both practitioners and academics, will give their time to speak on the most recent advances in the field of neuropsychopharmacology.

Held at historic Madingley Hall, this residential programme is led by world-renowned clinician and author **Dr Stephen Stahl** (*Essential Psychopharmacology*) and **Professor Peter B Jones**, Head of Psychiatry at the University of Cambridge School of Clinical Medicine.

Delegates will be invited to attend morning seminars, join discussion groups each afternoon and participate fully with speakers and colleagues.

The three-day residential course costs £1,850, to include room and board at Madingley Hall; book before 1 January 2011 for a £200 discount on the full price. Online booking is available at [www.ice.cam.ac.uk/cnp](http://www.ice.cam.ac.uk/cnp).

---

**Speakers include Dr Stephen M Stahl, Professor Peter Jones, Professor Barbara J Sahakian, Professor Trevor Robbins, Professor Ed Bullmore and Professor Phillip Cowen.**

Topics covered at the course will include the major disease states and their neurobiology across the spectrum of mental illness and the mechanisms of action of the psychopharmacologic agents used to treat these conditions. Throughout the course, the application of these concepts and clinical skills will be illustrated with reference to a wide range of descriptive case studies. Full details can be found on [www.ice.cam.ac.uk/cnp](http://www.ice.cam.ac.uk/cnp).

## Scope and contributions

*International Psychogeriatrics* is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.506 (2009). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites ([journals.cambridge.org/ipg](http://journals.cambridge.org/ipg) and [www.ipa-online.org](http://www.ipa-online.org)).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website [journals.cambridge.org/ipg](http://journals.cambridge.org/ipg). Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

**Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.**
