## EDITORIAL BOARD

ZHISHENG AN  
Institute of Earth Environment, Chinese  
Academy of Sciences  
*Quaternary geology, monsoon and  
global change, dust and aerosols*

GAIL ASHLEY  
Rutgers University  
*Paleoenvironments, paleohydrology of springs,  
wetlands and rivers, geoarchaeology*

JULIE BRIGHAM-GRETTE  
University of Massachusetts  
*Stratigraphy, sedimentology, chronology  
of Arctic climate and sea level*

JOHN DODSON  
Institute of Earth Environments, Xi'an, China  
*Australia, Pacific Islands, China, vegetation  
history, human impacts*

YEHOUDA ENZEL  
Hebrew University of Jerusalem  
*Desert geomorphology, palaeohydrology of  
lakes and streams*

DAVID FINK  
Australian Nuclear Science and Technology  
Organisation  
*Cosmogenic dating*

SHERI FRITZ  
University of Nebraska–Lincoln  
*Paleoclimate, paleolimnology, diatom  
ecology of North and South America*

ALAN R. GILLESPIE  
University of Washington  
*Glacial geology, paleoclimate, megafloods,  
Central Asia*

LISA GRAUMLICH  
University of Washington  
*paleoclimatology, paleoecology,  
climate change, mountain ecosystems*

VANCE T. HOLLIDAY  
University of Arizona  
*Geoarchaeology, North American  
Archaeology, Peopling of the New World,  
Soils, Late Quaternary Stratigraphy*

RICHARD G. KLEIN  
Stanford University  
*Human origins, Quaternary paleontology*

MELANIE LENG  
British Geological Survey,  
University of Nottingham  
*Stable isotope geochemistry, climate and  
environmental change*

DANIEL R. MUHS  
U.S. Geological Survey  
*Quaternary sea level history, Eolian  
stratigraphy, soils North America, Pacific,  
Atlantic, and Caribbean Islands*

COLIN V. MURRAY-WALLACE  
University of Wollongong  
*Coastal evolution, neotectonism, geochronology,  
Quaternary sea-level changes*

JAY QUADE  
Department of Geosciences,  
University of Arizona  
*geochemistry, paleoclimatology,  
Quaternary geology*

MARIA SOCORRO LOZANO-GARCIA  
Universidad Nacional Autónoma de México  
*Tropical paleoecology, paleoclimatology,  
human impact on ecosystems*

CATHY L. WHITLOCK  
Montana State University  
*Paleoecology and vegetation history:  
North and South America*

YURENA YANES  
University of Cincinnati  
*Isotope geochemistry, paleoclimatology,  
Quaternary mollusks, taphonomy,  
paleoecology*

LIPING ZHOU  
Peking University  
*Land-sea correlation, loess, geochronology,  
geomorphology, Central Asia, East Asia*

*Cover photo.* Waterfall Bluff is a remote location in eastern Pondoland, South Africa (Eastern Cape Province) where the Mlambomkulu River falls into the Indian Ocean. The rock shelter at Waterfall Bluff preserves the first direct evidence of coastal foraging in southern Africa dating to the the last glacial maximum as well as other detailed archaeological records documented by Fisher et al. that show hunting and gathering activities in a persistent near-coastal environment from 38,000 years ago to 11,000 years ago. Photo: Erich C. Fisher (see the article by Fisher et al., pages 1-41 this issue).
