

ADVANCES IN ANTIMITOTICS

*Proceedings of the
First International Symposium
on Antimitotics*

Rome, May 14-16, 1966

EDITED BY

L. Gedda, G. Cardinali, P. Parisi

INDEX OF CONTENTS *

PREFACE	VII
INDEX OF CONTRIBUTORS	XIII
L. GEDDA (Rome): Introduction to the Symposium	3
F. S. PHILIPS, H. S. SCHWARTZ, S. S. STERNBERG (New York): Hydroxyurea: inhibition of DNA-synthesis and selective susceptibility of S-phase cells <i>in vivo</i>	5
H. J. SEIDEL (Elberfeld): Experimental inhibition of the virus-induced Rauscher leukemia of the mouse	9
A. FIESCHI, C. SACCHETTI (Genova): Evaluation of the granulopoiesis during anti-blastic treatment	18
F. GAVOSTO, A. PILERI, L. PEGORARO (Torino): Proliferation kinetics of acute leukemia cells in relation to the chemotherapy	30
E. H. COOPER, N. E. TOPPING (London): Effects of Melphalan on a sensitive and a resistant Yoshida ascites tumour	40
L. A. ELSON (London): Growth inhibitory and haematological effects of alkylating agents and attempts at their modification to give greater selectivity of anti-tumour action	51
S. GARATTINI, M. G. DONELLI, L. MORASCA, C. RAINISIO, R. ROSSO (Milano): Attempts to establish new experimental methods to study antitumoral drugs	60
A. DE BARBIERI (Milano): Synthesis and screening of substances acting by alkylation and metabolic inhibition	67
S. ERIDANI, R. TISO, G. B. PONTI, R. VALENTINI (Milano): Biologic effects of recent antimetabolic compounds	78
A. BASERGA (Ferrara): Cytologic dysplasia after treatment with antimetabolic agents	99
A. DI MARCO (Milano): Mechanism of action of Daunomycin	102
R. THOM (Berlin): Fluorescence microscope and electron-microscope studies on the effect of Trenimon on human tumour cells	122
N. QUATTRIN, E. DINI, R. MONTUORI (Napoli): Trenimon treatment in chronic hemoblastoses	145

* Italiano: pag. 305; Français: p. 307; Deutsch: S. 309.

G. BRULÉ, S. HANE (Villejuif): Our experience with 5-Fluoro-2- Desoxyuridine	153
W. BOLLAG (Basel): Experimental studies with Methylhydrazine derivatives	158
P. INTROZZI, G. MARINONE (Pavia): Role of Methylhydrazine in the treatment of Hodgkin's disease	171
N. QUATTRIN, R. MONTUORI (Napoli): Treatment of some chronic hemoblastoses with a derivative of Methylhydrazine (Natulan)	178
G. ASTALDI (Tortona): Introduction to the general discussion on the cytological and haematological effects of antimetotics	180
P. DUSTIN (Bruxelles): Some observations on the cytological effects of antimetotic poisons	182
L. GEDDA, G. CARDINALI (Roma): The stathmokinetic agents	185
J. G. ARMSTRONG (Indianapolis): New derivatives of the Vinca rosea alkaloids	193
G. CARDINALI, G. CARDINALI, G. CENTURELLI (Roma): The Catharanthus roseus (Vinca rosea) alkaloids: a new class of stathmokinetic agents	197
A. COLARIZI, G. STEGAGNO, G. DIGILIO, G. MULTARI (Roma): Vincristine sulphate in the treatment of acute leukemia of childhood	209
E. STORTI, A. TRALDI, D. QUAGLINO (Modena): Clinical studies on the effect of Imuran and Vincristine in the treatment of leukaemia	220
E. ANGLÉSIO, A. CALCIATI, V. CARAMELLO (Torino): The treatment of lymphomas with Vincalukoblastine and Methylhydrazine	232
G. MATHÉ, M. SCHNEIDER, L. SCHWARZENBERG, A. CATTAN, J. L. AMIEL, J. R. SCHLUMBERGER (Villejuif): Personal experience on the chemotherapy of leukemias et hematosarcomas	245
N. QUATTRIN, E. DINI (Napoli): Use of new chemotherapeutic agents in acute and chronic myeloid leukemia	255
D. TAGLIORETTI, A. GIANGRANDE (Milano): Azathioprine in myeloproliferative and autoimmune disorders.	258
J. G. ARMSTRONG (Indianapolis): Current problems in the use of the oncolytic drugs	270
A. BASERGA (Ferrara): The different interpretations of the mechanism of action of antimetotics and the actual treatment of malignant hemopathies	279
H. GERHARTZ, K. E. HAMPEL (Berlin): The selectivity of effectiveness of cytostatic agents.	283
G. STECHER, G. REINHARDT (Freiburg): Chemotherapy in polycythemia vera	292
INDICE	305
TABLE DES MATIÈRES	307
INHALT	309
