ASTROPHYSICS AND SPACE SCIENCE LIBRARY

Cataclysmic Variables and Related Objects

Proceedings of the 158th Colloquium of the International Astronomical Union, held at Keele, United Kingdom, June 26-30, 1995

A. EVANS AND JANET H. WOOD (EDS.)

These proceedings present reviews and new results in the observational and theoretical study of cataclysmic variables (CVs) and related objects. A broad range of topics is included and there are thirteen reviews, covering magnetic and non-magnetic systems, accretion discs, observations of CVs from space, novae and symbiotic stars, X-ray binaries, supernovae and supersoft X-ray sources, and post common envelope binaries and evolution. There is a comprehensive subject and object index.

Audience

Astronomers and astrophysicists.
