The editors invite submission of articles, research notes, and review articles bearing upon problems in international relations and comparative politics. Manuscripts and notes should be double-spaced and submitted through the Web-based submission system, Manuscript Central, at <http://mc.manuscriptcentral.com/wp>. Research articles and review articles may be up to 12,500 words in length, including notes and references; research notes may be up to 10,000 words, including notes and references. Tables, figures, and appendixes need not be included in the word count. Word count should be indicated. Manuscripts that exceed the limit *will not be considered*. Guidelines for review articles, guidelines for special issues, tables of contents, and and other information can be found the *World Politics* home page, at www.princeton.edu/piirs/worldpolitics-journal.

Authors can expect to receive decisions on their submissions within four months. Procedures for reviewing manuscripts are based on the anonymity of the author and the confidentiality of readers' and editors' reports; author anonymity is preserved, as well, during the editorial decision-making process. Self-references should therefore be removed. Referees are drawn from Princeton and other institutions; published articles have usually been reviewed by at least one editor and two readers from other institutions. Referees for the previous calendar year are acknowledged annually in issue 4 of the journal. In the case of an article deemed to be inappropriate for *World Politics*, the editors strive to notify the author within a month of submission that the article has been withdrawn from consideration.

World Politics does not accept manuscripts that have already been published, are scheduled for publication elsewhere, or have been simultaneously submitted to another journal; this applies to both print and online formats. Statements of fact and opinion appearing in the journal are made on the responsibility of the authors alone and do not imply the endorsement of the editors or publisher. The journal does not publish communications to the editor or rejoinders to specific articles. Scholars who believe they have been challenged are encouraged to submit an article that will advance the scholarly debate.
