## TEMPORAL BONE SURGICAL DISSECTION COURSE

OFFERED BY

THE DEPARTMENT OF OTOLARYNGOLOGY

THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL, ANN ARBOR, MICHIGAN

COURSE DIRECTOR: JOHN L. KEMINK, M.D.

**1990:**

15–19 October

12–16 November

Intensive one-week courses emphasize the surgical and anatomical approaches to the temporal bone, and are presented in a manner relevant for the otologic surgeon, utilizing lectures, videotapes, and dissection.

Mornings and afternoons are spent in the dissection laboratory, giving extensive drilling experience in temporal bone anatomy and surgical techniques. All instruments and high-speed handpieces will be provided.

Course fee is: Physicians \$1,000      Residents \$750

For further information write:

John L. Kemink, M.D.,  
Box 0312 Taubman Medical Center,  
1500 E. Medical Center Drive,  
Ann Arbor,  
Michigan 48109, U.S.A.  
Tel: (313) 936-8006

## 1991 SMITH & NEPHEW FOUNDATION SERVICE DOCTOR BURSARY

Medical graduates at present serving in the Medical Service of one of the British Armed Forces and wishing to undertake a short specialist study overseas, are invited to apply for a Smith & Nephew Foundation Bursary valued at £5,000.

Application forms and further details may be obtained from:

The Secretary to the Trustees,  
Smith & Nephew Foundation,  
Gilston Park,  
Harlow,  
Essex CM20 2RQ,

or from

The Director Clinical Services,  
DMSD,  
First Avenue House,  
High Holborn,  
London WC1V 6HE.

Completed application forms should be sent to the respective Service Postgraduate Dean of Medicine on the Smith & Nephew Foundation Application form, to arrive not later than 30 November 1990. Shortlisted candidates will be asked to come to London for interview.

THE INSTITUTE OF LARYNGOLOGY AND OTOTOLOGY  
in association with  
THE ROYAL NATIONAL THROAT, NOSE AND EAR HOSPITAL

Gray's Inn Road, London WC1X 8EE  
NASAL PLASTIC SURGERY COURSE

5-8 February 1991

A four day surgical teaching course in practical rhinoplasty including lectures and operations. There are colour television demonstrations for the operations, cadaver dissection and video tape teaching sessions.

Course organizers: Mr T. R. Bull, Mr I. Mackay

Registration: £435 (inc £200 booking fee)

FACIAL SOFT TISSUE SURGERY COURSE

11-13 February 1991

A three day surgical teaching course in practical otoplasty, mentoplasty, including surgical techniques for excision, and repair of facial lesions, and surgical techniques for the ageing face. There is opportunity for dissection and video television facilities.

Course organizer: Mr T. R. Bull

Course fee: £435 (incl £200 booking fee)

MAJOR FACIAL RECONSTRUCTION COURSE

14-16 February 1991

A three day practical course in facial reconstruction. The course will emphasize the uses of pedicled and free microvascular flaps, problems and limitations. The course will include lectures, operating sessions, cadaver demonstrations, video television facilities and plenty of time for discussion.

Course organizers: Mr D. J. Howard, Mr P. Rhys Evans, Mr N. Breach

Course fee: £385 (inc. £200 booking fee)

Applications with booking fee to: Cheryl Overington, Courses Organizer, Institute of Laryngology and Otolaryngology, 330/332 Gray's Inn Road, London WC1X 8EE  
Telephone: 071-837 8855 extension 4218

SOCIÉTÉ D'OTOLOGIE PRATIQUE  
23, rue Cauchoix-95170 DEUIL-LA-BARRE FRANCE

Course in micro-surgery of the ear and dissection of the temporal bone-otology, oto-neuro-surgery:

*Dissection courses*

From Monday 21 to Friday 25 January 1991

From Monday 17 to Friday 21 June 1991

Fee(\*) ..... 3.500F.F

*Refresher courses*

Friday 18 & Saturday 19 January 1991

Friday 14 & Saturday 15 June 1991

Fee(\*) ..... 1.500F.F

(\*)Reductions of 15% granted for C.E.S., interns, residents and Heads of Clinics. ZEISS Microscopes, and all instruments provided.

Address: COURSE SECRETARY

SOCIÉTÉ D'OTOLOGIE PRATIQUE

23, rue Cauchoix

95170 Deuil-la-Barre (Région de Paris) France

Tel.:(1) 48.22.00.92+

THE TWJ FOUNDATION  
The Trustees of the TWJ Foundation  
invite applications for  
AN OTOLOGICAL CLINICAL AND RESEARCH FELLOWSHIP  
tenable at  
THE DEPARTMENT OF OTOLARYNGOLOGY, ANN ARBOR  
IN THE UNIVERSITY OF MICHIGAN  
for six months during 1991

Professor John Kemink will act as Clinical Tutor to the Fellow and the emphasis will be on neuro-otology and skull base surgery. The Fellow will also participate in research in the Kresge Laboratory under the direction of Dr J. Miller.

Applicants must be Fellows of one of the Royal Colleges of Surgeons and a Senior Registrar in Otolaryngology in an appointment recognized for Higher Surgical Training in the United Kingdom or the Republic of Ireland.

Further details concerning applications should be obtained *now* from:

The Trustees of the TWJ Foundation  
Courtlands, 61 Kingswood Firs  
Grayshott, Hindhead  
Surrey GU26 6ER

The closing date for formal applications will be  
Saturday, 3 November 1990

THE 27th HEAD AND NECK COURSE  
will be held at  
THE LIVERPOOL MEDICAL INSTITUTION  
on Friday, Saturday and Sunday 18th -20th JANUARY, 1991

This will be a basic course intended mainly for those in training.

The course fee will be £230 including coffee, lunch and tea. But *not* including accommodation or evening meal.

The Faculty are: Professor G. B. Snow and Professor P M Stell.

Application forms and further information may be obtained from:

Professor P. M. Stell,  
Department of Otorhinolaryngology,  
University of Liverpool,  
Royal Liverpool Hospital,  
PO Box 147,  
Liverpool L69 3BX.

# Instructions to Authors

**Historical Articles.** Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

**Letters to the Editor.** This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them as soon as possible thereafter.

'Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

**Pathology.** Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

**Radiology.** Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

**Short Communications.** This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

## Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.  
An address for correspondence should be supplied together with the author who should receive this and this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
4. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
5. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
6. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
7. Title of Journals must be given in full with the date, volume number and first and *last* pages.
8. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
9. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
10. Page proofs will normally be sent out three months in advance and must be returned as soon as possible.
11. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 071-224 1645.
12. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.

<b>Instructions to Authors</b> . . . . .	<i>Inside Front Cover</i>
--	---------------------------

**Main Articles**

Decline in the prevalence of childhood deafness in the Jewish population of Jerusalem: Ethnic and genetic aspects: <i>M. Feinmesser, L. Tell, H. Levi</i> . . . . .	675
Typing of <i>Pseudomonas aeruginosa</i> ear infections related to outcome of treatment: <i>M. Englender, M. Harrell, R. Guttman, S. Segal</i> . . . . .	678
Dysequilibrium and otitis media with effusion: <i>A. R. H. Grace, A. G. Pfeleiderer</i> . . . . .	682
