USA

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

## **Subscription information**

*Public Health Nutrition* is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 24, 2021 (18 issues):  
Internet/print package: £1390/\$2666 Americas only/€2227 EU only  
Internet only: £1006/\$1909 Americas only/€1599 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on [phn.edoffice@cambridge.org](mailto:phn.edoffice@cambridge.org) regarding any other types of submission.

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

**Monitoring and surveillance**

Energy-dense, nutrient-poor food and beverage sales in Australia: where and when products are sold, and how sales are changing over time  
*Emma Gearon, Deborah Riesenberger, Kathryn Backholer, Adrian J Cameron, Gary Sacks, Cliona Ni Mhurchu and Anna Peeters* 193

Availability and placement of healthy and discretionary food in Australian supermarkets by chain and level of socio-economic disadvantage  
*Sally Schultz, Adrian J Cameron, Lily Grigsby-Duffy, Ella Robinson, Josephine Marshall, Liliana Orellana and Gary Sacks* 203

**Assessment and methodology**

AdHealth: a feasibility study to measure digital food marketing to adolescents through Facebook  
*B Kidd, S Mackay, B Swinburn, C Lutteroth and S Vandevijvere* 215

Development, validation and utilisation of dish-based dietary assessment tools: a scoping review  
*Nana Shinozaki, Xiaoyi Yuan, Kentaro Murakami and Satoshi Sasaki* 223

Development and pilot of a tool to measure the healthiness of the in-store food environment  
*Rachael Jaenke, Christel van den Boogaard, Emma McMahon and Julie Brimblecombe* 243

**Nutritional status and body composition**

Behavioural characteristics and abdominal obesity among Brazilian shift working women  
*Heloísa Theodoro, Diego Garcia Bassani, Janaína Cristina da Silva, Karina Giane Mendes, Gabriela Hermann Cibeira, Julia Cigana Schenkel and Maria Teresa Anselmo Olinto* 253

Relationship of work-related stress with obesity among Brazilian female shift workers  
*Janaína Cristina da Silva, Anderson Garcez, Gabriela Hermann Cibeira, Heloísa Theodoro and Maria Teresa Anselmo Olinto* 260

**Nutrition communication**

Investigation on knowledge, attitudes and practices about food safety and nutrition in the China during the epidemic of corona virus disease 2019  
*Yingyi Luo, Linjun Chen, Fei Xu, Xiaoxia Gao, Dan Han and Lixin Na* 267

**Behavioural nutrition**

Poor appetite and overeating reported by adults in Australia during the coronavirus-19 disease pandemic: a population-based study  
*AJ Owen, T Tran, K Hammarberg, M Kirkman and JRW Fisher on behalf of the COVID-19 Restrictions Impact Research Group* 275

Evaluation of the effects of fear and anxiety on nutrition during the COVID-19 pandemic in Turkey  
*Seda Kaya, Zeynep Uzdil and Funda Pinar Cakiroglu* 282

**Nutritional epidemiology**

Estimation of salt intake assessed by 24-h urinary sodium level among adults speaking different dialects from the Chaoshan region of southern China  
*Fen Cai, Wen-Ya Dong, Jia-Xin Jiang, Xiao-Li Chen, Yue Wang, Chang-Yu Deng and Qing-Ying Zhang* 290

Consumption of ultra-processed foods at 11, 22 and 30 years at the 2004, 1993 and 1982 Pelotas Birth Cohorts  
*Caroline dos Santos Costa, Maria Cecilia Formoso Assunção, Juliana dos Santos Vaz, Fernanda Rauber, Isabel Oliveira Bierhals, Alicia Matijasevich, Bernardo L Horta, Helen Gonçalves, Fernando C Wehrmeister and Iná S Santos* 299

**Economics and environment**

Is the world converging to a 'Western diet'?  
*Azzeddine Azzam* 309

**Community nutrition**

Measuring the nutrition transition and its dynamics  
*Barry M Popkin* 318

The COVID-19 pandemic and its implications for the food information environment in Brazil  
*Michele Bittencourt Rodrigues, Juliana de Paula Matos and Paula Martins Horta* 321

**Interventions**

Nudging healthy eating in Dutch sports canteens: a multi-method case study  
*Merije van Rookhuijzen and Emely de Vet* 327

Physical function after dietary weight loss in overweight and obese adults with osteoarthritis: a systematic review and meta-analysis  
*Emily J Webb, Peter G Osmotherly and Surinder K Baines* 338

**Public policies**

The political economy of restricting marketing to address the double burden of malnutrition: two case studies from Fiji  
*Anne Marie Thow, Gade Waqa, Jennifer Browne, Taryn Phillips, Celia McMichael, Amerita Ravuvu, Jillian Tutuo and Deborah Gleeson* 354

Immediate effects of the implementation of nutritional warnings in Uruguay: awareness, self-reported use and increased understanding  
*Gastón Ares, Lucía Antúnez, María Rosa Curutchet, Luis Galicia, Ximena Moratorio, Ana Giménez and Isabel Bove* 364

**Corrigendum**

Trends in sugar-sweetened beverage consumption among California children – CORRIGENDUM  
*Amy L Beck, Suzanna Martinez, Anisha I Patel and Alicia Fernandez* 376

**Erratum**

Ultra-processed foods and early childhood caries in 0-3-year-olds enrolled at Primary Healthcare Centers in Southern Brazil – ERRATUM  
*Maurício Santos de Souza, Juliana dos Santos Vaz, Thais Martins-Silva, Rafael Aiello Bomfim and Andreia Moraes Cascaes* 377

Associations between nutrient intakes and dietary patterns with different sarcopenia definitions in older Australian men: the concord health and ageing in men project - ERRATUM  
*Arpita Das, Robert G Cumming, Vasi Naganathan, Fiona Blyth, David G Le Couteur, David J Handelsman, Louise M Waite, Rosilene V Ribeiro, Stephen J Simpson and Vasant Hirani* 378
