

New Works of Scholarly Significance from Fortress

The Experiment Hope

Jürgen Moltmann

The fourteen essays in this book have lasting value in that they portray the development of the author's thought in relation to our ever-changing historical and social situation. **\$8.95**

The Gnostic Paul

Gnostic Exegesis of the Pauline Letters

Elaine H. Pagels

This work demonstrates how evidence from gnostic sources may challenge the assumption that Paul writes his letters to oppose "gnostic opponents" and to repudiate their claims to secret wisdom. **\$10.95**

Ethics in The New Testament

Jack T. Sanders

This book is an analysis and critique of the basic ethical perspectives found in the New Testament and in the teachings of Jesus. The study proceeds chronologically with fresh exegetical treatments of the key ethical texts. **\$6.95**

Uses of Scripture in Recent Theology

David H. Kelsey

This study examines seven theologians' actual use of Scripture rather than their doctrines about Scripture. The theologians examined include Barth, Bartsch, Bultmann, Thornton, Tillich, Warfield and Wright. **\$11.95**

The Parables of the Triple Tradition

Charles E. Carlston

Basically a redaction-critical study of those parables which occur in all three of the Synoptic Gospels, this book attempts to unfold the various levels of tradition and to assess the theological use of each parable at each level. **\$11.95**

Gnosis

A Selection of Gnostic Texts

Volume II: Coptic and Mandaic Sources

Werner Foerster

English translation edited by R. McL. Wilson

The first volume of this book contained a comprehensive selection of texts relating to Gnosticism, mainly from patristic sources. This second volume presents a selection of original Gnostic material, drawn partly from the Nag Hammadi Gnostic library and partly from the literature of Mandaism. Some of these texts have not hitherto been available in English, and no other single volume offers so extensive a coverage. The translations have been made in close collaboration with the editors of the original German edition, Professors Krause and Rudolph, and carefully checked against the original sources to ensure that they are genuine translations of its documents. £7.50
