Two leading authorities probe Eastasia's challenge to the West

Why are Japan and its neighbors—China, Taiwan, North and South Korea, Singapore and Hong Kong—overtaking the West in management, technology and exports? What can our governments and industries do to respond? In this book, Roy Hofheinz and Kent Calder provide detailed answers, looking closely at the impact of both cultural values and public policies.

"Americans have become accustomed to the concept of Japan as 'number one.' Now Hofheinz and Calder have thrown us a still larger and more alarming challenge ... The authors' thesis is not just stimulating; it is mind-boggling. This is a fascinating and deeply significant book."

COMMITTEE ON SCHOLARLY COMMUNICATION WITH THE PEOPLE'S REPUBLIC OF CHINA (CSCPRC)

ANNOUNCES

GRANTS FOR STUDY AND RESEARCH IN CHINA IN THE NATURAL SCIENCES, ENGINEERING, SOCIAL SCIENCES, AND HUMANITIES (1983-84)

The National Program for Advanced Study and Research in China offers opportunities for graduate students and postdoctoral scholars to carry out long-term study or research in affiliation with Chinese universities and research institutes. Fellowships and grants are available for individuals in the sciences and engineering and in the social sciences and humanities. Application is open to citizens of the United States regardless of national origin, sex, or

religious affiliation. Grants, the number of which depends on available funding, include transportation to and from China, stipend, living and travel allowances while in China, and a limited research and educational materials allowance. The Program does not provide dependent travel or support.

The Program has two components; application should be made either to the Graduate Program or to the Research Program.

THE GRADUATE PROGRAM

- offers support for individuals between the B.A. and Ph.D. level for one of the following:
 - coursework at Chinese universities
 - research, including dissertation research, at Chinese universities (M.A. or equivalent required)
- requires high degree of Chinese language skill:
 - minimum three years' study of modern standard Chinese for applicants in the social sciences, humanities, and related fields
 - minimum two years' study for applicants in the sciences and engineering
- involves a minimum tenure of ten months (maximum one year), beginning September 1983

THE RESEARCH PROGRAM

- awards research support grants to scholars with the Ph.D. or equivalent
- requires presentation of a carefully formulated research proposal which may be expected to bring successful results within the present Chinese academic and research context
- involves tenure of three months to a year with strong preference for tenure of six months or longer in the social sciences and humanities, beginning no earlier than mid-July 1983 and ending no later than September 1984
- involves no minimum language requirement (necessity of Chinese language skills for a particular research plan will be considered in reviewing feasibility of proposals)

Postmark/Mailing deadline for applications: November 5, 1982.

The Sino-Soviet Conflict

A Global Perspective

Edited by Herbert J. Ellison

"The triangular relationship of the United States, China, and the Soviet Union is of critical importance for Americans. How we manage this relationship will profoundly affect the prospect of peace for the remainder of this century and on into the next."—Senator Henry M. Jackson, from the Foreword. The 1970s brought immensely important changes in the Sino-Soviet relationship, changes that have had a profound impact on international politics. This volume, the first systematic, well-informed analysis of those developments, brings together the work of eighteen scholars examining the background and sources of the Sino-Soviet dispute and its international repercussions. 432 pp., index. Witnesses to the Origins of the Cold War

Edited by Thomas T. Hammond

A unique collection of memoirs by ten eye-witnesses describing one of the most controversial developments in twentieth-century history, the origins of the Cold War. A distinguished group of scholars and public servants, all former American officials who served in Eastern Europe in the 1940s, have contributed firsthand accounts about events they experienced and how East-West conflicts emerged in the different settings. Professor Hammond provides an introductory chapter, and a conclusion that summarizes the views of the ten authors and analyzes the conflict between Russia and the U.S. over Eastern Europe from 1941 to 1946. 328 pp., index. \$22.50

KOREA AND TWO REGIMES
Kim Il Sung and Park Chung Hee
by Sung Chul Yang

This is the first systematic approach to examining Korean politics by utilizing macro and micro level methods of analysis. On the macro level, it explores historical and political milieus leading to the Japanese annexation of Korea in 1910 and then the Korean liberation and partition in 1945. The micro level analysis is of Kim Il Sung and Park Chung Hee. The author hopes that his study will shed light on the common leadership problems of divided nations. He feels that Korea divided is a microcosm of the world divided "much as Korea reunited will be the barometer of the new world unity."

THE ARC OF SOCIALIST REVOLUTIONS
Angola to Afghanistan
by Suzanne Katsikas

Citing U.S. policy in Angola during the Nixon-Kissinger administration, and then discussing Afghanistan, the author shows how "globalists," concerned mainly with the "balance of power" between the U.S. and the U.S.S.R., frequently ignore specific events or conditions in Third World countries. She demonstrates that in the "Arc of Instability" (including Angola and Afghanistan), it was the autonomous revolutionary process and Western influence which were the major factors in radicalization.

Studies in Kabuki and the Puppet Theater

James R. Brandon, editor • 25 b & w and 13 color photos • \$30.00

Four leading scholars present a wealth of new material on this highly praised drama of Japanese theater, based on a sensational incident of the Tokugawa era. For their act of vengeance, Asano's 47 loyal retainers who raided Kira's mansion and beheaded him were required to commit *seppuku*. **Donald Keene** describes how the historical vendetta of 1701 became the basis of scores of plays. **Donald H. Shively** is concerned with the dramatic subterfuges contrived by playwrights to put the story on the stage despite severe government censorship. **William P. Malm** analyzes the music of the puppet theater and **James R. Brandon** gives an account of how the original puppet theater was adapted for live performance.

The book concludes with the English playscript of *The Forty-Seven Samurai* as it was performed in Hawaii in 1979. Photographs illustrate puppet and kabuki productions of *Chūshingura* in Japan and Hawaii. This well-produced book is a stimulating theatrical excursion for those with an interest in Japanese history and culture.

Japanese Inn

Oliver Statler

illus. • \$8.95 paper

A classic returned to print, *Japanese Inn* is a social history of Japan through 400 years. As a supplementary reader for Japanese history courses, this is an enticing introduction to the subject. "Japanese history made easy, and grand entertainment," —Robert Trumbull, *New York Times Book Review*. "Not only a delight to read but also a fascinating entry into realities of culture and history not easily accessible to the Western mind," —Robert R. Kirsch, *Los Angeles Times*. "An accurate portrayal of an era little known and little understood in the West," —Bill Hosokawa, *Denver Post*. Pure reading pleasure for the scholar of Japanese history and culture.

Rabbits, Crabs, Etc.

Stories by Japanese Women

Phyllis Birnbaum, editor

\$15.00, \$7.95 paper

A memorable addition to writings about a Japan we are only beginning to understand, *Rabbits, Crabs, Etc.* is a perplexing, provocative, and occasionally chilling set of explorations into the interior realm of the female psyche. Sensitively translated by an American novelist, the five stories and one novella were all written in this century. Like their classical counterparts in a thousand-year-old lineage of women's literature in Japan, they are intensely personal statements.

Notable as strong fiction, these stories are also of value to those with a sociological interest in contemporary Japan.
