

Copying. This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/91 \$5.00 + .00.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

The Proceedings of the Nutrition Society, published by the Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The contributions will be published *in extenso*; such summaries of the ensuing discussions as circumstances warrant may also be published. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription to the *Proceedings* is £90.00 in UK, £93.00 elsewhere net (US \$190.00 in USA and Canada). Single issues are £31.00 (US \$69.00 in the USA and Canada) each; postage extra.

CONTENTS

Editorial

Why do you want to publish this paper? *D. A. T. Southgate* 1-2

Measurement of Food Intake

Measurement of milk intake: tracer-to-infant deuterium dilution method. *Nancy F. Butte, William W. Wong, Peter S. Klein & Cutberto Garza* 3-14

Diet and Gastrointestinal Function

The effect of short-term dietary supplementation with glucose on gastric emptying in humans. *Karen M. Cunningham, Michael Horowitz & Nicholas W. Read* 15-19

Rat small intestinal morphology and tissue regulatory peptides: effects of high dietary fat. *F. A. Sagher, J. A. Dodge, C. F. Johnston, C. Shaw, K. D. Buchanan & K. E. Carr* 21-28

Daily food intake and digestibility in rats. *T. Larsen, Karin Østergård, Inge Hansen, K. E. Bach Knudsen & B. O. Eggum* 29-35

Protein Metabolism

Changes in the urinary excretion of acid-soluble peptides in rats injected with streptozotocin or dexamethasone: a trial to estimate the changes in the rate of whole-body protein degradation in those rats. *Taek Jeong Nam, Tadashi Noguchi & Hiroshi Naito* 37-46

Influence of low- and high-protein diets on insulin and insulin-like growth factor-1 binding to skeletal muscle and liver in the growing rat. *D. Dardevet, M. Manin, M. Balage, C. Sornet & J. Grizard* 47-60

Trace Element Metabolism

The effect of tea on iron and aluminium metabolism in the rat. *Susan J. Fairweather-Tait, Zoe Piper, S. Jemil A. Fatemi & Geoffrey R. Moore* 61-68

Effect of various levels of selenium in wheat and meat on blood Se status indices and on Se balance in Dutch men. *Hetty W. van der Torre, Wim Van Dokkum, Gertjan Schaafsma, Michel Wedel & Theo Ockhuizen* 69-80

Diet and Liver Metabolism

Effect of the leafy vegetable *Solanum nigrum* on the activities of some liver drug-metabolizing enzymes after aflatoxin B₁ treatment in female rats. *Paul F. Moundipa & Felicite Mbiapo Domngang* 81-91
