Experimental Agriculture publishes the results of research on crops, herbage and forage, with the main emphasis on field experiments carried out in the warmer climates of the world. It also includes accounts of new experimental techniques, discussions of specific problems met in countries where agricultural production is developing rapidly, review articles on new developments in scientific agriculture, and occasional papers on technical, economic and sociological aspects of farming systems. The journal is the successor to *The Empire Journal of Experimental Agriculture*.

Experimental Agriculture is published quarterly. Four parts form a volume.

Subscriptions may be sent to any bookseller or subscription agent or direct to Cambridge University Press, P.O. Box 92, London, N.W.1. Subscriptions in the U.S.A. and Canada should be sent to the American branch of the Press, 32 East 57th Street, New York, N.Y. 10022. The subscription price is £7.00 net (including postage) for an annual volume (\$23.00 in the U.S.A.), payable in advance; separate parts cost £2.00 net or \$6.50 each (plus postage).

Second class postage paid at New York, N.Y.

Back Volumes. Inquiries for Vols. 1-32 of *The Empire Journal of Experimental Agriculture* should be addressed to Wm Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Previously published parts of *Experimental Agriculture* are available from the London or New York offices of Cambridge University Press.

Permissions. For permission to reproduce material from *Experimental Agriculture*, please apply to the London or New York office of Cambridge University Press.

ISI Tear Service, 325 Chestnut Street, Philadelphia, Pennsylvania 19106, U.S.A. is authorized to supply single copies of separate articles for private use only.

NOTES FOR CONTRIBUTORS

Contributions will be welcomed from scientists of all nationalities, particularly those working in tropical and sub-tropical countries where up-to-date techniques of agricultural experimentation are helping in the rapid development of more modern methods of farm production. Contributions, which must be written in English, should be sent to the Editor, Professor J. P. Hudson, The Spinney, Wrington, Bristol BS18 7LB.

Conditions of acceptance. Submission of a paper will be taken to imply that the material has not previously been published, and is not being considered for publication elsewhere. Papers published in *Experimental Agriculture* may not be reprinted or published in translation without permission from the Editor, given on behalf of the Editorial Board.

General lay-out. Before having their manuscripts typed contributors are asked to look carefully at the lay-out of other papers published in this journal, to ensure that their own papers, as submitted, conform as closely as possible to

the accepted pattern. This very much facilitates the work of the Editor and may often result in a paper being published earlier than if it requires a great deal of detailed editorial attention. Numerical data, which should only be included if they are essential to the argument, can be presented either in the form of tables or diagrams, but should never be shown in both ways. It is not the normal custom of the Journal to publish notes shorter than about 2000 words (4 pages) or longer than about 6000 words (12 pages including illustrations).

Typescripts. A top copy and one carbon copy of the script should be submitted, typed with double spacing, on one side of the paper only and with margins of about 1½ inches at the left-hand side and head of each sheet. Quarto size is preferred to foolscap.

Title. The development of automatic bibliographic methods, based on single-word indexing of the significant words in the title, makes it essential that the title of each paper should contain the maximum of relevant informa-

JOURNAL OF THE BRITISH GRASSLAND SOCIETY

This Journal is a medium for the publication of the results of research and practical experience in the realm of grassland husbandry and forage production.

EDITOR: A. G. G. HILL

Contents of Volume 27, No. 2, June 1972

TILLERING IN GRASSES—ITS SIGNIFICANCE AND CONTROL. *O. R. Jewiss*

THE ELECTRONIC MEASUREMENT OF SMALL HERBAGE YIELDS USING A HIGH SENSITIVITY CAPACITANCE METER. *J. V. Lovett and G. J. Burch*

SOME FACTORS AFFECTING MILK PRODUCTION FROM GRASSLAND AT THE HANNAH INSTITUTE, 1951–70
M. E. Castle, Elizabeth MacDaid and J. N. Watson

PRODUCING GRASS FOR SUMMER MILK. *K. M. Wolton*

THE RATE OF WATER LOSS FROM GRASS SAMPLES DURING HAY-TYPE CONSERVATION. *R. M. Morris*

EFFECT OF DAY-NIGHT TEMPERATURE REGIMES ON GROWTH AND MORPHOLOGICAL DEVELOPMENT OF TIMOTHY PLANTS DERIVED FROM WINTER AND SUMMER TILLERS. *Dale Smith*

REPEATABILITY OF A TWO-STAGE *in vitro* SYSTEM OF DIGESTIBILITY MEASUREMENT. *A. L. Brundage*

THE EFFECT ON FATTENING STEERS OF SUPPLEMENTING SILAGE WITH DRIED GRASS OR ROLLED BARLEY
T. A. McCullough

STUDIES OF RESPONSE TO FERTILIZER NITROGEN. PART 2. EFFECTS OF PRE-HARVEST APPLICATION OF FERTILIZER NITROGEN ON MINERAL UPTAKE OF S24 PERENNIAL RYEGRASS. *I. V. Hunt*

BOOK REVIEWS

Published quarterly. Annual subscription £4, post free. Back numbers are available, in complete volumes (except Vol. 12), at £4 per volume.

THE JOURNAL OF AGRICULTURAL SCIENCE

CONTENTS

Vol. 78 Part 3 June 1972

- R. A. GUIRGIS and E. SALAH E. GALAL. The association between kemp and some vigour and wool characteristics in Barki and merino Barki cross
- K. W. MOIR. The effect of different extraction procedures on the recovery of cell walls in forage and faeces from cattle and sheep
- K. W. MOIR. An assessment of the quality of forage from its cell-wall content and amount of cell wall digested. (With 1 text-figure)
- A. M. YASSEN and M. A. EL-KAMASH. Buffalo sperm survival in glycine-yolk extenders
- A. M. YASSEN and M. N. MAHMOUD. Relationship between body weight and testicular size in buffalo bulls (With 2 text-figures)
- M. E. CASTLE. A comparative study of the feeding value of dried sugar-beet pulp for milk production
- R. WEBSTER and P. H. T. BECKETT. Matric suction to which soils in South Central England drain. (With 5 text-figures)
- J. T. WOOD, D. J. GREENWOOD and T. J. CLEAVER. Interactions between the beneficial effects of nitrogen, phosphate and potassium on plant growth
- J. K. R. GASSER and the late M. A. P. THORBURN. The growth, composition and nutrient uptake of spring wheat. Effects of fertilizer-N, irrigation and CCC on dry matter and N, P, K, Ca, Mg and Na (With 6 text-figures)
- P. A. CAWSE and D. SHELDON. Rapid reduction of nitrate in soil re-moistened after air-drying. (With 1 text-figure)
- K. VOHNOUT and J. V. BATEMAN. Effects of crude fibre upon feeding efficiency of cattle in 'warm' environments
- J. H. L. MORGAN. Effect of plane of nutrition in early life on subsequent live-weight gain, carcass and muscle characteristics and eating quality of meat in cattle. (With 1 text-figure)
- NEWTON, J. E. and BETTS, J. E. A comparison between the effect of various photoperiods on the reproductive performance of Scottish Half-bred ewes. (With 1 text-figure)
- R. BRAUDE and P. LERMAN. Effect of straw bedding, crude protein content of cereals and of latitude in balancing daily rations of growing pigs
- F. W. WAINMAN, K. L. BLAXTER and J. S. SMITH. The utilization of the energy of artificially dried grass prepared in different ways. (With 2 text-figures)
- N. WALKER, I. H. HEANEY and D. H. McNALLY. The effect of plane of nutrition on the performance and carcass characteristics of pigs slaughtered at 100 kg live weight
- R. J. WILKINS. The potential digestibility of cellulose in grasses and its relationship with chemical and anatomical parameters. (With 1 text-figure)
- BROMFIELD, A. R. Sulphur in Northern Nigerian soils. 1. The effects of cultivation and fertilizers on total S and sulphate patterns in soil profiles. (With 3 text-figures)
- N. SABA, HILARY M. DRANE and C. NANCY HEBERT. Effects of disease on the oestrogenic activity and coumestrol content of white clover and lucerne
- J. FERNANDEZ CARMONA and J. F. D. GREENHALGH. The digestibility and acceptability to sheep of chopped or milled barley straw soaked or sprayed with alkali. (With 4 text-figures)
- J. MCEWEN. Effects of defoliating different zones on the plant in fields beans (*Vicia faba* L.)
- G. W. REID, J. F. D. GREENHALGH and J. N. AITKEN. The effects of grazing intensity on herbage consumption and animal production. IV. An evaluation of two methods for avoiding the rejection of fouled herbage by dairy cows
- P. C. LONGDEN. Monogerm sugar-beet seed production experiments. (With 3 text-figures)
- D. A. LITTLE and J. G. MORRIS. Prediction of the body composition of live cattle. (With 2 text-figures)

SHORT NOTE

IAN RHODES. Yield, leaf-area index and photosynthetic rate in some perennial ryegrass (*Lolium perenne* L.) selections

£4.00 net (\$12.00 in USA). Annual subscription £18 net (\$57.00) in USA for six issues

CAMBRIDGE UNIVERSITY PRESS

200 Euston Road, London NW1 2DB

TO KEEP UP TO DATE WITH AGRICULTURAL RESEARCH

The simplest and best method is to consult

Herbage Abstracts

(for grasses, pastures, rangelands and fodder crops)

and

Field Crop Abstracts

(for annual field crops)

If you would like to receive a free copy of either of these quarterly journals please write to:

**Commonwealth Bureau of Pastures and Field Crops,
Hurley, Maidenhead, Berks SL6 5LR, UK**

RHODESIAN JOURNAL OF AGRICULTURAL RESEARCH

VOL. 10 No. 2

CONTENTS

1972

Animal Production

Dietary energy utilization by young Friesland calves:

1. Energy and dry matter content of calves at four days of age
2. Digestibility and metabolizable energy contents of whole milk and skim milk powder, and energy retentions of calves
3. Utilization by calves of energy in whole milk

Submicroscopic structure of the epithelial cells and glands in the nasolabial plane of the ox

Pedology

Occurrence of an acid sulphate soil in Rhodesia

Entomology

An outbreak of African armyworm, *Spodoptera exempta*, in Rhodesia

Forestry

Techniques for measurement of latewood in central African pine timber
Variation of wood quality of *Pinus merkusii* in Zambia

Research Note

Estimating the quantity of flowers on pine trees

Book Reviews

Published twice annually

Annual subscriptions R\$3.00

Single numbers R\$1.50
