"We have experimentally proved that Listerine is a powerful antiseptic, preventing the development of bacteria and decomposition of vegetable infusions."—*British Medical Journal*, May 3, 1890.

LISTERINE

*A safe, non-poisonous, unirritating
antiseptic solution*

LISTERINE is particularly useful in the treatment of abnormal conditions of the mucosa, and admirably suited for a wash, gargle, or douche, in catarrhal conditions of the nose and throat.

LISTERINE in proper dilution may be freely and continuously used without prejudicial effect, either by injection or spray, in all the natural cavities of the body.

LISTERINE embodies a two-fold antiseptic effect, in that after the evaporation of its volatile constituents—thyme, eucalyptus, mentha, gaultheria, and ethyl alcohol—a film of boracic and benzoic acids remains upon the surface to which Listerine has been applied, affording more prolonged antiseptic protection.

LISTERINE is a trustworthy surgical dressing; it has no injurious effect upon the tissues in which the healing process is going on.

LISTERINE in teaspoonful doses will often afford relief in fermentative dyspepsia, and is largely prescribed, with excellent results, in the various forms of diarrhœa occurring in infants and adults.

LISTERINE literature, including special pamphlets upon *Respiratory Diseases*, may be had, by physicians, upon application to

EDINBURGH POST-GRADUATE COURSES IN MEDICINE

In connection with the University and Royal Colleges.

SHORT ADVANCED COURSES FOR GRADUATES will be held during the Summer and Autumn Terms and the Summer Vacation.

The individual Courses will be held only provided a certain minimum number of Graduates enter for them; and in certain Courses a maximum limit will also be imposed.

The Courses will be conducted by teams of Teachers, and the following subjects will be included, viz.: Clinical Therapeutics; Tuberculosis; Diseases of the Blood; Diseases of the Renal System; Diseases of the Alimentary System; Diseases of the Circulatory System; Diseases of the Ductless Glands; Abdominal Surgery; Genito-Urinary Surgery; Surgery of Children; Clinical Gynaecology and Clinical Obstetrics; Child Welfare; Diseases of the Larynx, Ear and Nose; Ophthalmoscopy and Errors of Refraction; Venereal Diseases; Advanced Bacteriology; Serology; Advanced Medical Anatomy; Advanced Surgical Anatomy.

Arrangements will also be made, if necessary, for special instruction in Ante-natal Maternity Work; Psychiatry; and Dermatology.

Particulars in regard to the Courses—dates of commencement, fees, etc.—may be had on application to

The Hon. Secretary, Post-Graduate Courses in Medicine, University New Buildings, Edinburgh.

CENTRAL LONDON THROAT AND EAR HOSPITAL

GRAY'S INN ROAD (Near King's Cross Stations.)

Large Out-Patient Clinics. Over 12,000 new patients last year.

In-Patient Department, 43 beds.

The work carried on at this Hospital comprises :

1. **The Daily Out-Patient Clinic.**

Monday, Wednesday, Thursday, Friday, Saturday, 2 p.m.

Tuesday, 5 p.m.

Conducted by

DR. ABERCROMBIE

DR. ATKINSON

DR. NICOL RANKIN

MR. STUART LOW

DR. DAN MCKENZIE

MR. ARCHER RYLAND

DR. ANDREW WYLIE

MR. HAROLD KISCH

2. **The Minor Operations.**

These are performed at 9 a.m. on Monday, Tuesday, Wednesday, Thursday, Friday.

3. **The In-Patient Department. Major Operations.**

These take place at 2 o'clock on Monday, Tuesday, Wednesday, Thursday, Friday.

The list of operations is to be seen on the notice board in the Out-patient Consulting Room.

4. **Lectures and Demonstrations.**

Courses of Practical Instruction are given throughout the year by Members of the Staff, on Tuesdays and Fridays, at 3 p.m. punctually.

The Courses consist of two classes twice a week devoted to Anatomy, Pathology, Diagnosis and Treatment of the special diseases dealt with at the Hospital. They may be joined at any time.

A **Surgical Anatomy and Operative Surgery Class** is held when desired. The teaching is practical and demonstrative, and is illustrated by diagrams, models, specimens and instruments.

5. **The Pathological Laboratory**

Is at all times available to students. Dr. Wyatt Wingrave, Pathologist to the Hospital, is in attendance Monday, Wednesday, Friday, 3 p.m.

Clinical Assistants

Are appointed from among those gentlemen who have enrolled themselves for attendance on the practice of the Hospital.

Further particulars may be had on application to the Dean.

Fees.

For attendance on the practice of the Hospital (Clinical Assistants)—

Three months	...	5 guineas.
