

British Journal of Nutrition

Published online by Cambridge University Press

BJN An International Journal of Nutritional Science

Volume 102 Number 10 28 November 2009

Published on behalf of The Nutrition Society by Cambridge University Press

ISSN 0007-1145

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of
The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Research Institute, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editor

J C Mathers, *School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Supplements Editor

C Seal, *School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Book Reviews Editor

O B Kennedy, *School of Food Biosciences, University of Reading, Reading, UK*

Editorial Board

J J B Anderson, *Chapel Hill, NC, USA*

J R Arthur, *Aberdeen, UK*

S B Astley, *Norwich, UK*

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

Contents

Obituary

- Sheila Bingham (1947–2009).
A. Cassidy & A. Welch 1389

Short Communication

- Vitamin E status and quality of life in the elderly: influence of inflammatory processes.
L. Capuron, A. Moranis, N. Combe, F. Cousson-Gélie, D. Fuchs,
V. D. Smedt-Peyrusse, P. Barberger-Gateau & S. Layé 1390–1394
- Reduced glycaemic and insulinaemic responses following trehalose ingestion: implications for postprandial substrate use.
J. G. P. van Can, T. H. IJzerman, L. J. C. van Loon, F. Brouns & E. E. Blaak 1395–1399
- Side effects of problem-solving strategies in large-scale nutrition science: towards a diversification of health.
B. Penders, R. Vos & K. Horstman 1400–1403
- Particle size and fraction of wheat bran influence short-chain fatty acid production *in vitro*.
M. L. Stewart & J. L. Slavin 1404–1407
- Reduced glycaemic and insulinaemic responses following isomaltulose ingestion: implications for postprandial substrate use.
J. G. P. van Can, T. H. IJzerman, L. J. C. van Loon, F. Brouns & E. E. Blaak 1408–1413
- The impact of age on the postprandial vascular response to a fish oil-enriched meal.
K. G. Jackson, C. K. Armah, I. Doman, L. James, F. Cheghani & A. M. Minihaue 1414–1419

Molecular Nutrition

- Lactobacillus helveticus* and *Bifidobacterium longum* taken in combination reduce the apoptosis propensity in the limbic system after myocardial infarction in a rat model.
S.-A. Girard, T. M. Bah, S. Kaloustian, L. Lada-Moldovan,
I. Rondeau, T. A. Tompkins, R. Godbout & G. Rousseau 1420–1425

Metabolism and Metabolic Studies

- D-chiro-Inositol is absorbed but not synthesised in rodents.
X. Lin, L. Ma, C. Gopalan & R. E. Ostlund Jr 1426–1434
- Effects of pomace olive oil-enriched diets on endothelial function of small mesenteric arteries from spontaneously hypertensive rats.
R. Rodriguez-Rodriguez, M. D. Herrera, M. A. de Sotomayor & V. Ruiz-Gutierrez 1435–1444

Developmental Biology

- Maternal diets deficient in folic acid and related methyl donors modify mechanisms associated with lipid metabolism in the fetal liver of the rat.
C. J. McNeil, S. M. Hay, G. J. Rucklidge, M. D. Reid, G. J. Duncan & W. D. Rees 1445–1452

Nutritional Immunology

- The cereal type in feed influences gut wall morphology and intestinal immune cell infiltration in broiler chickens.
E. Teirlynck, L. Bjerrum, V. Eeckhaut, G. Huygebaert, F. Pasmans, F. Haesebrouck,
J. Dewulf, R. Ducatelle & F. Van Immerseel 1453–1461

Nutritional Toxicology

- The red wine polyphenol resveratrol reduces polycyclic aromatic hydrocarbon-induced DNA damage in MCF-10A cells.
H. Y. Leung, L. H. Yung, G. Shi, A.-L. Lu & L. K. Leung 1462–1468

Microbiology

- Arginine deiminase originating from *Lactococcus lactis* ssp. *lactis* American Type Culture Collection (ATCC) 7962 induces G₁-phase cell-cycle arrest and apoptosis in SNU-1 stomach adenocarcinoma cells.
J.-E. Kim, S. Y. Kim, K. W. Lee & H. J. Lee 1469–1476

Human and Clinical Nutrition

- Changes in vitamin biomarkers during a 2-year intervention trial involving increased fruit and vegetable consumption by free-living volunteers.
H. M. Macdonald, A. C. Hardcastle, G. G. Duthie, S. J. Duthie, L. Aucott, R. Sandison,
M. J. Shearer & D. M. Reid 1477–1486
- Diet and deprivation in pregnancy.
P. Haggarty, D. M. Campbell, S. Duthie, K. Andrews, G. Hoad, C. Piyathilake & G. McNeill 1487–1497

Dietary Surveys and Nutritional Epidemiology

- Dietary carbohydrates, glycaemic load, food groups and newly detected type 2 diabetes among urban Asian Indian population in Chennai, India (Chennai Urban Rural Epidemiology Study 59).
V. Mohan, G. Radhika, R. M. Sathya, S. R. Tamil, A. Ganesan & V. Sudha 1498–1506
- Long-term dietary patterns and carotid artery intima media thickness: The Cardiovascular Risk in Young Finns Study.
V. Mikkilä, L. Räsänen, M. M. L. Laaksonen, M. Juonala, J. Viikari, P. Pietinen & O. T. Raitakari 1507–1512
- Bread type intake is associated with lifestyle and diet quality transition among Bedouin Arab adults.
K. Abu-Saad, I. Shai, V. Kaufman-Shriqui, L. German, H. Vardi & D. Fraser 1513–1522

Innovative Technique

- In vivo* metabolic tracking of ¹⁴C-radiolabelled isoflavones in kudzu (*Pueraria lobata*) and red clover (*Trifolium pratense*) extracts.
J. G. Mun, M. D. Grannan, P. J. Lachcik, A. Reppert, G. G. Yousef, R. B. Rogers, E. M. Janle, C. M. Weaver & M. A. Lila 1523–1530

Behaviour, Appetite and Obesity

- Associations between sleeping habits and food consumption patterns among 10–11-year-old children in Finland.
L. Westerlund, C. Ray & E. Roos 1531–1537

Letter to the Editor

- Calcium, vitamin D and weight loss.
A. Blumsohn & M. Barker 1538

Nutrition Discussion Forum

- Calcium, vitamin D and weight loss – reply by Tremblay and Major.
A. Tremblay & G. Major 1539–1540
