

**6700 current abstracts a year on  
PUBLIC HEALTH, SOCIAL MEDICINE AND HYGIENE  
in 12 fully indexed monthly issues**

With the annual volume of medical literature published throughout the world increasing so rapidly, it becomes ever more difficult for the individual specialist to keep abreast of the latest developments in his particular field. For this reason Excerpta Medica has been publishing, since 1955, in English, a journal exclusively devoted to Public Health, Social Medicine and Hygiene.

Some 3000 of the world's most important journals are screened consistently to form the basis for each of the 38 Excerpta Medica abstract journals.

**Public Health, Social Medicine and Hygiene** currently contains 6700 abstracts per year.

Each issue contains a subject and author index which is annually cumulated and published in a separate issue. This, as well as a detailed classification allow for rapid location of abstracts.

The references in the subject index (computer-collated) are based on both the title and contents of the article.

- *Quotations on back volumes will be provided on request*
- *Specimen copies will be sent on request*
- *Annual subscription rate: US \$50.00/  
£20.95 Stg./Dfl. 180,00*
