

First Annual International SAMPE Metals & Metals Processing Conference Scheduled

The first annual International SAMPE Metals & Metals Processing Conference will be held August 18-20, 1987 at the Hyatt Hotel in Cherry Hill, New Jersey. "Competitive Advances in Metals & Processes" is the theme of this conference sponsored by the Wilmington-Philadelphia chapter of the Society for the Advancement of Material and Process Engineering (SAMPE).

Papers will be presented on advanced materials technology and applications of metals and metals processing. Conference session subjects include nondestructive testing, metal matrix composites, aluminum-

lithium, coatings, corrosion, powder metallurgy, metal alloy development and fabrication, and cost reduction in manufacturing in joining and heat treating. Separate sessions will cover applications for the materials and processes, especially for aerospace, transportation, basic metal industries, and space. Some sessions will be restricted.

For further information contact SAMPE, 843 West Glantana, Box 2459, Covina, CA 91722; telephone (818) 331-0616.

Symposium on Applications of Small Accelerators

The Symposium on Applications of Small Accelerators will be held in Beijing, China on October 20-23, 1987, three days after the 12th International Conference on

Atomic Collisions in Solids (ICACS) to be held in Japan. This symposium is being organized by Beijing Normal University and Fudan University and sponsored by the Chinese State Education Commission and the National Natural Science Foundation of China.

The symposium's program will cover the following topics: particle-solid interaction (basic research), ion-beam-induced surface modification of materials, ion beam analysis, and other applications. The official language of this symposium is English, and contributed papers will be presented in oral and poster sessions. Some invited talks will be given by well-known experts. A publication of the proceedings is planned.

For further information contact Prof. Zhong-lie Wang, Institute for Low Energy Nuclear Physics, Beijing Normal University, Beijing, China.

**1987 AIP JOURNAL
SUBSCRIPTION RATES
for MRS Members**

Members of the Materials Research Society are entitled to special subscription rates on 10 journals published by the American Institute of Physics. To order contact Subscription Department, American Institute of Physics, 335 East 45 Street, New York, NY 10017; telephone (212) 661-9404.

Be sure to indicate that you are a member of MRS.
