Important International Law Titles from

PRACTICE AND PROCEDURE OF THE INTERNATIONAL CRIMINAL TRIBUNAL FOR THE FORMER YUGOSLAVIA

*With Selected Materials from the
International Criminal Tribunal for Rwanda
by John E. Ackerman, Eugene O'Sullivan*

This volume is designed to provide a quick yet comprehensive reference to the jurisprudence of both the ICTY and to some extent, the ICTR. It goes significantly beyond the Judgements of the Tribunal into the Orders and Decisions of the Trial and Appeals Chambers. The book is organized by sections, according to each Article of the Statute and Rule of procedure and evidence. Following the text of the Article or Rule, there is a Commentary section, where appropriate and a digest of Judgements, Decisions and Orders of the Appeals Chamber and the Trial Chambers.

THE REPUBLIC OF CYPRUS A Study In International Law With a Foreword by Christopher Greenwood, QC by Kypros Chrysostomides

The island of Cyprus has been the scene of one of the most tragic conflicts in post-war Europe. Since 1974, more than a third of the island has been occupied by Turkey. Attempts to find a peaceful solution to the conflict have come and gone but the status quo, branded as unacceptable by the United Nations, has remained. An understanding of how the rule of law in international society applies to Cyprus is essential to a proper understanding of the Cyprus question. In this book, Dr. Chrysostomides offers just such an analysis, examining with great care the constitutional history of the Republic of Cyprus, the legal principles applicable to the Turkish invasion of 1974 and subsequent occupation and the substantial body of case law and State practice regarding Cyprus since that date.

REFLECTIONS ON AN INTERNATIONAL ENVIRONMENTAL COURT

by Ellen Hey

This publication explores the arguments for and against the establishment of an international environmental court, examining topics such as the definition of an international environmental dispute and the concomitant expertise required on the bench, fragmentation and its root causes, access to justice and the representation of community interests. The author argues that the establishment of an international environmental court is not the most desirable option and she suggests that it might be more fruitful if we consider developments in environmental law, as well as in other relevant areas of international law, from a different perspective, namely, that of administrative law and reassess the relationship between international and national law.

ICT LAW AND INTERNATIONALISATION A Survey of Government Views

*edited by Bert-Jaap Koops, Corien Prins,
Hielke Hijmans*

Legal problems abound in the information society. Electronic commerce, copyright, privacy, illegal and harmful content, taxes, wiretapping governments face an enormous challenge to meet the advent of the Internet and ICT with a flexible, up-to-date, and adequate legal framework. Yet one aspect makes this challenge even more daunting: internationalisation. This book presents the positions on these issues of the governments of the Netherlands, Germany, France, the UK, and the US, as well as of international organisations. Any legal framework that is to fit the global information society must take into account internationalisation. This volume shows to what extent governments are meeting this challenge.

THE ASYLUM ACQUIS HANDBOOK *The Foundation for a Common European Asylum Policy*

edited by Peter J. van Krieken

The Asylum Acquis Handbook is a unique and comprehensive tool for those who have a sincere interest in contributing to a sound, common European asylum policy. Asylum has always been an intensively debated topic, and these days even more so than in the recent past. Virtually everyone has an opinion on the subject and the general consensus is that the European Union should strive for a common asylum policy. Yet, basic information is lacking: while there is talk on an 'acquis,' talk on 'communitarization,' the various discussions, so far, miss the firm foundation on which to build the common European asylum house. It seeks to fill this gap and serves as an important reference book with in-depth information on asylum-related topics.

REPORTS OF JUDGMENTS, ADVISORY OPINIONS AND ORDERS/RECUEIL DES ARRETS, AVIS CONSULTATIFS ET ORDONNANCE

*edited by International Tribunal for the Law
of the Sea*

This annual volume contains, in both English and French texts, the Judgments and Orders delivered by the Tribunal in the previous year. The Tribunal is a central forum for the settlement of disputes relating to the interpretation and application of the United Nations Convention on the Law of the Sea under the comprehensive system for the settlement of disputes established by the Convention. The Tribunal has exclusive and binding jurisdiction in certain instances. The Tribunal's Seabed Disputes Chamber has compulsory jurisdiction over conflicts concerning seabed activities. The Tribunal is open to States, international organizations and other entities.

INTERNATIONAL LAW AND SELF-DETERMINATION *The Interplay of the Politics of Territorial Possession with Formulations of Post- Colonial 'National' Identity*

by Joshua Castellino

The principle of self-determination has at heart the achievement of true representation and democracy based on the idea that the consent of the governed alone can give government legitimacy. Being a vital principle, especially in the post-colonial state, it is one factor that represents a threat to world order while at the same time holding out the promise of longer-term peace and security based on values of democracy, equity and justice. This book looks at the intricacies of the norm in its current ambiguous manifestation and seeks to deconstruct it with regard to three particularly inter-related discourses: that of minority rights, statehood and sovereignty, and the doctrine of *uti possidetis* which shaped the modern post-colonial state.

THE LAW AND PRACTICE OF THE UNITED NATIONS *Second Revised Edition*

by Benedetto Conforti

The latest edition of this work provides a comprehensive legal analysis of problems concerning membership, the structure of U.N. organs, their functions and their acts taking into consideration the text of the Charter, its historical origins, and, particularly, the practice of the organs. This legal analysis, which is free of dogmatism and firmly linked to practice, describes the role played by the United Nations in the past and at present better than many lengthy and inconclusive political or sociological studies. It is very much focused on the Charter as it stands and only marginally deals with reforms that might be introduced, such as those concerning the structure of the Security Council and the General Assembly.

International and Comparative Law Quarterly

GENERAL EDITORS: Alan BOYLE and Mads ANDENAS

When founded in 1952, *ICLQ* was the only journal that offered coverage of comparative law as well as public and private international law. It has maintained its pre-eminence as one of the most important journals of its kind encompassing human rights and European law. Now celebrating its 50th year of publication, *ICLQ* continues to offer practitioners and academics wide topical coverage without compromising rigorous editorial standards.

Bringing International Human Rights Law Home

The human rights of women and girls are an inalienable, integral and indivisible part of universal human rights, however, finding a balance between women's claim for justice and a community's desire to maintain its traditions presents a significant challenge. This publication covers three main themes: marriage and family relations; violence against women; and work-related rights of women and girls. Almost 100 judges and magistrates participated in making this publication an impressive piece of work providing strategies for more creative and widespread use of international human rights norms.

The International Court of Justice: Questions and Answers About the Principal Judicial Organ of the United Nations

The International Court of Justice is the principal judicial organ of the United Nations. It plays an important role in the peaceful settlement of legal disputes between States and contributes, both by its judgments and advisory opinions, to the development of international law. This book provides answers to some of the most frequently asked questions about the functioning of the International Court of Justice and its case-law.

JUST WAR OR JUST PEACE?

Humanitarian Intervention and
International Law

SIMON CHESTERMAN

This book asks whether states have the right to intervene in foreign civil conflicts for humanitarian reasons. The UN Charter prohibits state aggression, but many argue that such a right exists as an exception to this rule. Simon Chesterman analyzes this important issue and puts NATO's action in Kosovo in its proper legal perspective.

TRANSITIONAL JUSTICE

RUTI G. TEITEL

At the century's end, societies all over the world are throwing off the yoke of authoritarian rule and beginning to build democracies. At any such time of radical change, the question arises: should a society punish its *ancien regime* or let bygones be bygones? Taking this question to a new level, this book challenges the very terms of the contemporary debate.

Human Conduct in a World of States

ROBERT JACKSON

This major study presents a comprehensive analysis of the most important international issues of our time, including peace and security, war and intervention, human rights, failed states, territories and boundaries, and democracy. It attempts to justify the worldwide state system as a foundation of political freedom, and envisions the future of international society in the 21st century.

RECONCILING ENVIRONMENT AND TRADE

Edited by Edith Brown Weiss and John H. Jackson, with assistance from Nathalie Bernasconi-Osterwalder

Much of the research and analyses made available in this book for the first time, is startling. **Reconciling Environment and Trade** focuses on five cases, four of them actual GATT/WTO cases, the fifth sure to be a case in the very near future. The cases reflect five basic issues in the clash between trade and the environment: public health, air pollution, food safety, destruction of endangered species, and biosafety. These issues surface dramatically in unresolved international disputes over tobacco, reformulated gasoline, beef growth hormones, commercial fishing methods, and genetically modified organisms. In their analyses of these cases and their vast implications, the authors take into account disciplines of both trade law and environmental law, noting the points of friction between the multilateral instruments in each field and the developing jurisprudence of the WTO Dispute Settlement with regard to the exceptions specified in Article XX of the GATT.

EQUITABLE LAW OF CONTRACTS: Standards And Principles

By Larry A. DiMatteo

This remarkable study places the modern development of equitable contract principles on a firm theoretical foundation. It shows that the idea of the just and equitable contract has never been entirely absent from contract law, and that its persistence in various guises, albeit often in a covert manner, has in fact been the essential element in judicial enforcement of contracts since Roman times. The new contractual paradigm called for in **Equitable Law of Contracts** counterpoises certainty and justice in a way that is both historically justified and in tune with current economic realities.

COMPARATIVE LAW IN GLOBAL PERSPECTIVE

Edited by Ian Edge

The sixteen essays in this remarkable volume offer truly global perspectives on such crucial contemporary issues as economic development, the persistence of customary law, "offshore" jurisdictions, family law and succession, land tenure, the forging of national constitutions, human rights violations, and the treatment of ethnic minorities. They portray the laws of Asian and African countries as equal manifestations of legal culture in a shrinking world. Not only does this approach highlight the full diversity of the world's legal traditions; it also serves to combat the scourge of xenophobia, and disarm inward-looking policies that spawn racism and overt nationalism.

CHALLENGING HUMAN RIGHTS VIOLATIONS: Using International Law in U.S. Courts

By Francisco Forrest Martin

This book guides civil rights lawyers—and informs judges, legislators, and academics—in the effective use of international law in U.S. federal and state cases. In identifying and explaining pertinent issues in the successful use of international law, the author highlights many concrete areas in which international law can enhance human rights protection both in the U.S. and abroad. This eminently practical approach presents an extremely rare treatment of international human rights law.

New from Princeton

The Collapse of the Kyoto Protocol and the Struggle to Slow Global Warming David G. Victor

Global warming continues to dominate environmental news as legislatures worldwide grapple with the process of ratification of the December 1997 Kyoto Protocol. Most politicians, policymakers, and analysts hailed the treaty as a vital first step in slowing greenhouse warming. David Victor was not among them. In this clear and cogent book, Victor explains why the Kyoto Protocol is unlikely to enter into force and how its failure will offer the opportunity to establish a more realistic alternative.

"David Victor's book is a rare delight and one of the finest documents I have seen in a very long time. . . . It is a startlingly good volume. . . ."—David Pearce, University College London

Diplomacy of Conscience

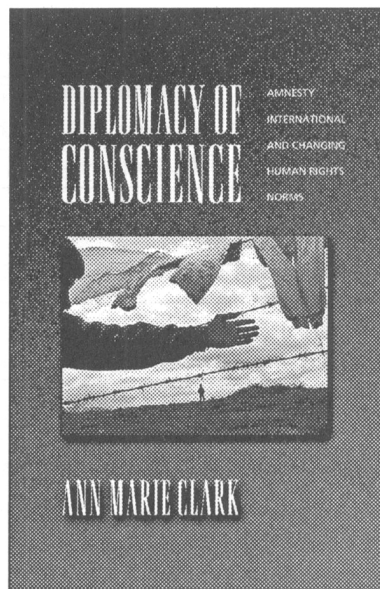

Amnesty International and Changing
Human Rights Norms

Ann Marie Clark

A small group founded Amnesty International in 1961 to translate human rights principles into action. *Diplomacy of Conscience* provides a rich account of how the organization pioneered a combination of popular pressure and expert knowledge to advance global human rights.

"*Diplomacy of Conscience* is a valuable book. By examining specific aspects of Amnesty International's widespread research and advocacy work, it goes well beyond the few shallow and dated studies of this critically important NGO."—Claude Welch, SUNY, Buffalo
